MindGeek

Mindgeek — an organization that you have never heard of. Anonymous (ID: OrD0QGgZ) 06/05/17(Mon)13:24:38 No.128612248 ▶ >>128612646 >>128613448 >>128614317 >>128615109 >>128615152 >>128615492 >>128615683 >>128615893 >>128615897 >>128616543 >>128618088 >>128618416 >>128619208

Most of you probably are unaware of what "Mindgeek", this company, even is— that's because it is just a shell company that its real masters have gone at great lengths to conceal their operations and identities, and most importantly, their endgame.

This shell company, hidden away in an anonymously structured Luxemburg corporation, owns the following: Brazzers, Digital Playground, Pornhub PornMD, RedTube, Playboy TV, and YouPorn and dozens of gay sites. Most upper-level management and private stakeholders are Jews. They are also one of the largest (((big data))) companies around.

Their goal: to infiltrate and destroy what is left of western society by hypersexualizing anything they can think of and destroying everything we once held sacred. They are trying to break apart the family unit by introducing the populace to sicker and sicker pornography, including most recently, porn that simulates incest. They are trying to normalize homoerotic materials to classically condition people into becoming homosexuals (see behavioral psychologist, B.F. Skinner). They openly work with the media to not only promote their own filth but also to say that there are no downsides to any of it! They managed to create the largest mind virus in our generation, the ultrasexual feedback loop—this is where sexual thoughts actions and behaviors become the a total obsession for people, at expense of productive life goals.

Let's break apart the name. "Mindgeek". Why would a porn umbrella company be called this? What relevance does it have? It has to do with the Jewish owners larger goal; to get inside and infect the minds of everyone (most importantly, white males), to subconsciously affect them. They do not make any money from people who just browse and don't click the ads; but they do get an addicted slave though that now values the short-term pleasure more than any long-term goals in life and will ideally absorb their political conditioning as well. They are pure evil.

There is a huge increase in incest porn pushed on the front pages of major porn sites. This is very deceptive because the vids have increasingly attractive performers and someone might watch the video based only on the hot girl in the thumbnail and not the incest title.
What if this is going to be used in future court cases to take away children from their family because the father is a "risk" because of a porn title he probably didnt read?

Cousin Marriages

Does the Torah permit cousin marriages? Is the topic discussed at all? I'm concerned in particular because the inbreeding is likely to cause genetic disorders, as historically happened to many royal families. I have the impression that upper class Jewish families have likewise engaged in this practice.

The Aish Rabbi Replies:

It is permitted under Torah law for cousins to marry. In fact, the Sages seem to view marriages between relatives as desirable. The Talmud recommends that a person marry his niece (Yevamot 62b). (There's a debate in the commentators if it applies specifically to a sister's daughter or also to a brother's.) The assumption is that a person will have an especially close relationship with a close relative, perhaps because of their likely similar personalities and values. The reasoning may be the same for a cousin, but the Talmud doesn't mention it. (I should point out that for a woman to marry her nephew is forbidden from the Torah – Leviticus 18:12-13.)

Some point out that the daughters of Zelophehad married their cousins (Numbers 36:11) so the practice has good precedent. Some also suggest that cousin marriages are likely to engender fewer fights between the in-laws!

In terms of the genetic issues, you are right that relatives who marry should be even more careful to do genetic screening in advance. The Talmud is referring to a single instance rather than a long-term practice. Of course, since Ashkenazi Jewry descends from a very small group of ancestors many of us are already stuck with significant genetic issues.

I should add that Jewish law obligates us to abide by the law of the land. Since many US states and locations worldwide forbid cousin marriages, one may not marry his cousin in such locations according to Jewish law as well.

"I would not be where I am in my life today, were it not for LCC. I donate to LCC because they not only support students during their school years, but long after they graduate. I spent 12 years at LCC and was given endless opportunities, whether it be in the classroom, on the field, or at conferences. Once I graduated, I was greeted with open arms by the supportive alumni community. No matter the donation size, any amount helps pave the way for future students who deserve the LCC experience."

It's certainly been pushed hard - still not as much as interracial though. Here's what I see on the front page of xvideos.com:
>48 total videos
>2 WF/BM videos
>1 kebab/BM video
>4 incest (one was mom/son, other was brother/sister - two were stepmother/son)
Actually was surprised by the lack of cuck porn on the front page. Usually if I look, it appears that like every fourth video is.

I doubt it. Its more that Jews want to completely flip our morals on their heads. Once the Jews have you believing that incest, sodomy, homosexuality, transvestites, miscegenation, scat play etc. are completely normal and fun, then they will have truly won.
They want a good upstanding father to fall because of porn, to become twisted and perverse. They want little Stacy to stay up late watching incest porn, little Johnny hooked on seeing blacks fuck hot white women. Complete perversion and twisting of our morals, it will make us weak, complacent, addicted to vice, easily exploited. All things the Jews need to keep their grip on power.

You know I did find it strange that whenever I was searching for "white man asian woman" it always gave me the reverse.
It annoyed me to the point I even tried "white man black woman", "white man latino woman" to see if it done the same.
[redacted]
Now before any of you say "search results based on your past viewing", even before when I was a bluepilled normie that watched porn, cuck shit and seeing black guys in porn always disgusted me never touched any of that garbage.
After a while I even noticed there was an increased amount of cuck porn on the "newest page" of every site I used.
Back then I literally thought "it was a coincidence" or that a group of people were flooding site with that shit just for fun.
But now?

I've noticed this too. It used to be the case that the IR cuck shit was relegated to its own niche. You had to go out of your way to find that garbage. But in recent years, they now flood the main page with it. For example, a porn gallery site might have a "teen" category. Well, this category was 99% white-on-white, with no niggerdicks in sight. But go to the teen category today, and it's full of niggerdick cuck shit.
Everyone should be doing noporn now though. that shit rots your brain. At least try to move over to just solo stuff or something.

Exactly. And I believe it's healthier if you're using your own imagination rather than your brain shutting off and flooding your eyeballs with picture after picture after picture of hardcore sex. People have been fapping for eons. The current problem is with porn.

That's kind of why I unironically shill for doujins. Sometimes you just gotta get one out, or else you'll go crazy, but at least doujins and still images require some form of imagination, at least in my opinion.

CITIZEN'S GUIDE TO U.S. FEDERAL LAW ON OBSCENITY

18 U.S.C. § 1460- Possession with intent to sell, and sale, of obscene matter on Federal property
18 U.S.C. § 1461- Mailing obscene or crime-inciting matter
18 U.S.C. § 1462- Importation or transportation of obscene matters
18 U.S.C. § 1463- Mailing indecent matter on wrappers or envelopes
18 U.S.C. § 1464- Broadcasting obscene language
18 U.S.C. § 1465- Transportation of obscene matters for sale or distribution
18 U.S.C. § 1466- Engaging in the business of selling or transferring obscene matter
18 U.S.C. § 1466A- Obscene visual representations of the sexual abuse of children
18 U.S.C. § 1467- Criminal forfeiture
18 U.S.C. § 1468- Distributing obscene material by cable or subscription television
18 U.S.C. § 1469- Presumptions
18 U.S.C. § 1470- Transfer of obscene material to minors
18 U.S.C. § 2252B Misleading domain names on the Internet
18 U.S.C. § 2252C Misleading words or digital images on the Internet

The U.S. Supreme Court established the test that judges and juries use to determine whether matter is obscene in three major cases: *Miller v. California*, 413 U.S. 15, 24-25 (1973); *Smith v. United States*, 431 U.S. 291, 300-02, 309 (1977); and *Pope v. Illinois*, 481 U.S. 497, 500-01 (1987). The three-pronged *Miller* test is as follows:

1. Whether the average person, applying contemporary adult community standards, finds that the matter, taken as a whole, appeals to prurient interests (*i.e.*, an erotic, lascivious, abnormal, unhealthy, degrading, shameful, or morbid interest in nudity, sex, or excretion);
2. Whether the average person, applying contemporary adult community standards, finds that the matter depicts or describes sexual conduct in a patently offensive way (*i.e.*, ultimate sexual acts, normal or perverted, actual or simulated, masturbation, excretory functions, lewd exhibition of the genitals, or sado-masochistic sexual abuse); and
3. Whether a reasonable person finds that the matter, taken as a whole, lacks serious literary, artistic, political, or scientific value.

Any material that satisfies this three-pronged test may be found obscene.

Federal law prohibits the possession with intent to sell or distribute obscenity, to send, ship, or receive obscenity, to import obscenity, and to transport obscenity across state boarders for purposes of distribution. Although the law does not criminalize the private possession of obscene matter, the act of receiving such matter could violate the statutes prohibiting the use of the U.S. Mails, common carriers, or interactive computer services for the purpose of transportation (See 18 U.S.C. § 1460; 18 U.S.C. § 1461; 18 U.S.C. § 1462; 18 U.S.C. § 1463). Convicted offenders face fines and imprisonment. It is also illegal to aid or abet in the commission of these crimes, and individuals who commit such acts are also punishable under federal obscenity laws.

Obscenity Investigations and Prosecutions

The U.S. Attorneys' Manual states:

> Prosecution of large scale distributors of obscene material who realize substantial income from their multi-state operations also is encouraged. Prosecution priority should be given to cases in which there is evidence of involvement by known organized crime figures. However, prosecution of cases involving relatively small distributors can have a deterrent effect and would dispel any notion that obscenity distributors are insulated from prosecution if their operations fail to exceed a predetermined size or if they fragment their business into small-scale operations. Therefore, prosecution of such distributors also may be appropriate on a case-by-case basis. [5]

The Manual further requires that substantial deference be given to the factors set forth in *Miller v. California* in determining the viability of potential obscenity cases. Officials within the FBI's Violent Crimes Unit and the Criminal Division's CEOS stated that because *Miller v. California* requires an assessment of community standards in determining obscenity, the Department relies more on the states and localities to investigate and prosecute obscenity cases involving individuals. The FBI and the CEOS also stated that because much of the obscene material is distributed over the Internet, it is difficult to identify a case's jurisdiction and therefore which community standards should be applied. They stated that the Department focuses its resources on investigating and prosecuting obscenity cases involving major producers and interstate and foreign distributors of obscene material. In addition, they stated that the Department investigates and prosecutes obscenity cases where organized crime or other crimes such as money laundering, extortion, and trafficking in women are involved. According to the FBI, since 1994 it has investigated a total of 58 obscenity cases, 12 of which were related to organized crime.

Table 6 below shows the Department's prosecutions of obscenity crimes under Title 18 of the United States Code, sections 1460 through 1470. Appendix II contains a summary of these statutes.

"MindGeek itself has something of a checkered past. In 2009, the Secret Service seized $6.4 million from bank accounts controlled by Mansef, a company founded by Stephane Manos and Ouissam Youssef, the assets of which Mansef later sold to German tech investor Fabian Thylmann, who made them part of a company he owned called Manwin. Manwin would later become MindGeek. (Of the $6.4 million that was seized, $4.15 million was later released pursuant to a settlement with the federal government.) In April 2011, Manwin quietly secured a $362 million loan from Wall Street firm Colbeck Capital, founded by former Goldman Sachs employees Jason Colodne and Jason Beckman. (Goldman Sachs distanced themselves from the two.) Colbeck's funds were in turn secured from other firms including the troubled Fortress Capital, masking the Manwin association. Having used the loan to continue to acquire tube sites and content producers, Thylman was then extradited from Belgium to Germany in 2012 for tax evasion on Manwin's profits. In late 2013, Thylman was bought out by current CEO Ferras Antoon and COO David Tassillo, longtime players within the company, who now control operations from Montreal. (Manwin's name was changed to Mindgeek in 2013.)"

This is in part why jews try to claim they are white - they try to lead whites to degeneracy by leading by example. Whites following jewish degeneracy follows a wave effect. The ones that follow a degenerate trend set by jews will always be as terrible, hollow, and degenerate as the jew themselves. As time goes on and that behavior is "normalized" comparably *stable* and fairer-looking people may join that "enterprise" because they think they can do a better job and they themselves find no fault in being part of that degenerate behavior - with concessions.
This explains why porn stars in recent times don't look like the bimbos of past years and some porn studios try to hire girls that look like the girl next door and the most they make is softcore stuff. Even the late-wave joiners decide to impose limits. But it all goes back to the jew that pretends they're white.
This tactic in turn hurts the jew as well as race-mixing makes their children likely to marry a nigger as seen with a rothschild daughter. Their gambit is that they can influence whites just enough to make it pay off. However in this critical period where the backlash will push race-mixing back to the taboo-then-forbidden nature it should be, that leaves the jew with a coalburning daughter. I don't think the rabbi will care come briss time.

>>10049391 talks anout usually sexual degeneracy as part of the brainwashing in universities, and the porn industry, ESPECIALLY webcams, aims directly at university students who need extra cash but are short on time for work.
>And then there is another layer… Sexual. We've all seen how prevalent the push for trans/bisexual/faggotry and sexual deviance goes in these places. The students are PRESSURED into this. If you're "binary" or "cis", you know, normal and straight and not a whore, you are persistently pressured and belittled as a matter of cultural standard into adopting a

whorish degenerate persona. These kids are peer pressured into sexual deviancy and the VAST majority are on fuckbuddy sites, and use apps like tinder and grinder, which push random meaningless sex.
>why?
>They do this to break them mentally. We all have seen what a long string of meaningless relationships do to people, and these are the worst, just using each other as whores until they're used up, pushed further and further into fetishism, and it's a part of their IDENTITY!

>In October 2009, the U.S. Secret Service's Organized Fraud Task Force in Atlanta seized about $6.4 million in funds from two Fidelity bank accounts controlled by Mansef, the Brazzers holding company. By this point, the company was already experiencing internal troubles. Matt Keezer had left earlier that year; his brother Phil then joined as CEO, only to leave within a few months. At least some of the founders had grown concerned for their safety and hired security guards, who for several months patrolled their neighborhood 24 hours a day in SUVs with tinted windows.

>In response to the asset seizure, Mansef claimed that it had opened the Fidelity accounts simply to ease payment processing in the U.S., but the Feds said that more than $9 million had been wired into the two accounts over a three-month period from banks in Israel and other countries on financial-fraud watch lists.

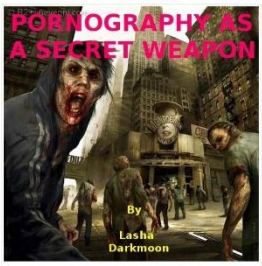
PORNOGRAPHY AS A SECRET WEAPON

Lasha Darkmoon

May 9, 2014 Articles, Recommended Reading

Pornography is deployed today as a psyop or mind weapon: to pacify, control, brutalize, and ultimately enslave the masses.

"We corrupt in order to rule."
— Italian Freemason Giuseppe Mazzini



TURNING MEN INTO SWINE

How do you take a nation of free and independent citizens and turn them into slaves? How do you do this slowly and imperceptibly, without violence, and with the willing participation of the slaves-to-be?

The answer is simple.

You corrupt them, undermine them, deprave them, demoralize them, until they have acquired all the characteristics of slaves.

As the sorceress Circe, with a wave of her magic wand, turned the followers of Ulysses into grunting swine, you can wield your weapon of mass hypnosis, the media, over a nation and transform its citizens into willing slaves. You can learn to roboticize man and turn him into a living machine. This is power. This is what it must feel like to be God — or the Devil.

Is there a secret weapon or "magic wand" for turning men into swine? Yes, there is. Sex is the secret weapon, the magic device, that turns men into swine.

1. Jews use pornography "to destroy gentile morals"

Who are the richest and most successful entrepreneurs of the $100 billion year porn industry? [1] The peddlers of pornography belong to all races, but one race above all stands out as preeminent in this field. Selling sex, like slave trafficking and moneylending, has always been a Jewish speciality.

Jewish academic historian **Dr Nathan Abrams** *(right)*, perhaps the world's most renowned authority on the Jewish role in pornography, let the cat out of the bag a few years ago in his controversial essay, *Triple-Exthnics*. [2]

Jewish academic Dr Nathan Abrams:
"Though Jews make up only 2 percent of the American population, they dominate porn."

Published in the prestigious *Jewish Quarterly* in 2004, this essay spelled out in detail how the world's multibillion dollar porn industry was dominated by Jews.

Dr Abrams not only admits that Jews are the world's most successful pornographers, he celebrates the fact. Jews, he tells us, have a grudge against Christianity, an "atavistic hatred of Christian authority" rooted in centuries of humiliation, and pornography is one of the ways in which they get their revenge on their Christian persecutors — the hateful oppressors who expelled them from 109 countries since the year 250 AD, always without justification. [3]

So it's now payback time.

> Jewish involvement in pornography [Dr Abrams notes candidly] has a long history in the United States. Though Jews make up only two per cent of the American population, they have been prominent in pornography.
>
> According to one anonymous industry insider quoted by E. Michael Jones in the magazine *Culture Wars* (May 2003), "the leading male performers through the 1980s came from secular Jewish upbringings and the females from Roman Catholic day schools".
>
> The standard porn scenario became as a result a Jewish fantasy of schtupping the Catholic *shiksa* [non Jewish female].
>
> Jewish involvement in the X-rated industry can be seen as a proverbial two fingers to the entire WASP establishment in America.
>
> Jewish involvement in porn, Dr Abrams believes, "is the result of an atavistic hatred of Christian authority: they are trying to weaken the dominant culture in America by moral subversion." [4]

"CHRIST SUCKS!"
— Al Goldstein, Jewish pornographer

Al Goldstein *(pictured)*, the publisher of *Screw* magazine, had once said — and Dr Abrams is happy to quote him: "The only reason that Jews are in pornography is that we think that CHRIST SUCKS."

Dr Abrams' indulgent attitude to porn is a little surprising. Here is a man who actually believes that Jewish domination of the porn industry is a stunning achievement. Jews get gold stars for masturbation promotion.

ADL National Director, Abraham H. Foxman, agrees with the "liberal" idea that pornography is a good thing — if not for the countless victims of porn addiction, at least for Jews who grow rich on exploiting those addicts. "Those Jews who enter the pornography industry," Foxman notes with approval, "have done so as individuals pursuing the American dream." [5]

Dr Abrams, the sober Jewish academic, now ups the ante by adding a sinister touch to the controversy. "Jews are the driving force behind the modern pornographic industry," he tells us smugly, "and their motivation is, in part, to destroy gentile morals." [6]

To destroy gentile morals.

Note that phrase well. It amounts to an open declaration of war. For why should Jews wish to "destroy gentile morals" unless they hated the gentiles — in this case, Christians — and wanted to destroy our most cherished values?

There is no law to prevent this **Jewish comedienne** *(pictured opposite)* from uttering blasphemous obscenities against Jesus Christ and giving offense to 2.1 billion Christians by her infamous comment, *"I hope the Jews did kill Christ! I'd fucking do it again — in a second!"*

Just imagine an equally well-known Christian comedian coming out with a similar insult against the victims of the Holocaust: *"I hope the Nazis DID kill 6 million Jews! I'd fucking do it again — in a second!"*

Such a grossly offensive comment would be unthinkable. The comic who made it would be ostracized at once and never allowed to work again in the entertainment business.

And yet the Jew today, in the person of Sarah Silverman, is perfectly free to spit in the Christian's face and is even applauded for this hate speech. The Christian can do nothing about it. He has become a slave in his own country — an object of ridicule and contempt.

2. How Jews Dominate the American Porn Industry

It comes as no surprise to learn that Jews dominate the production and distribution of pornography. If you want to learn more about these luminaries of lust and see what they look like, here is an excellent starting point.

In a now defunct article entitled *Jews in Porn*, parts of which have been published on Henry Makow's site, Luke Ford notes:

> Used to hatred from society, Jews will do its dirty work – such as money-lending in the Middle Ages or porn today – for the opportunity to make money.
>
> Persecuted for millennia in the various societies they've lived in, many Jews developed an allegiance to their own survival as their highest value and care little about the survival of the persecuting society.
>
> Even when Jews live in a society that welcomes them instead of harassing them, many Jews hate the majority culture.
>
> Neither rooted in their own tradition or in that of the majority Christian tradition, they live in a community of rebels.
>
> Because of Judaism's emphasis on education and verbal dexterity, Jews dominate academia, entertainment and media generally. Porn flows out of this culture over which Jews exert an influence disproportionate to their 2% proportion of the American population. [7]

♠

Robert J. Stoller, M.D. in his 1991 book, *Porn: Myths for the Twentieth Century*, sought to understand the mentality of the people involved in the hard core pornography business. While interviewing some of the actors and actresses in California, he was told, "If you're welcomed into the porn scene, it's unbelievable. It's an extended family … *So many Jewish people involved with it.*" [8]

Today, most porn movies and porn videos in America are produced by Jews in the **San Fernando Valley** *(pictured)* in Southern California. This is located just north of Los Angeles in a sprawl of seedy suburbs known to locals as "Porn Valley" or "the Other Hollywood".

SAN FERNANDO VALLEY
Known also as "Porn Valley", this bastion of Jewish sleaze is thought to produce 90 percent of America's pornography.

Here Jews are the kingpins of the sex industry and own every single major studio. Chief among these is **Vivid Entertainment** [9], reportedly the largest porn production company in the world.

This is owned by Jewish multi-billionaire Steven Hirsch, sometimes known as the "Porn King". Vivid generates an estimated $100 million a year in revenue, cranking out 60 films per year and selling them in video stores, hotel rooms, on cable systems and on the Internet. [10]

"Sex is a powerful thing," Hirsch notes complacently. "This is the right time for us!" [11]

Another billionaire Jewish porn mogul, Paul Fishbein, founder of Adult Video News (*AVN*), is also headquartered in Porn Valley, California. Fishbein's business associates, Irving Slifkin, Barry Rosenblatt, and Eli Cross are all fabulously rich Jews. [12]

So make no mistake: Porn Valley, California, is a Jewish enclave, as Jewish as Tel Aviv or Brooklyn.

JEWISH SUPREMO ABE FOXMAN:
"Those Jews who enter the porn industry have done so as individuals pursuing the American dream."

3. The Jewish Role in Child Pornography

According to the British charity, National Children's Homes, 55 percent of t world's child porn in made in America. [13]

It would be astonishing to learn that Jews were not in the forefront of this sordid enterprise also, given that they dominate the porn industry as a whole [14]

Pedophilia is a worldwide phenomenon, but it is an undeniable fact that the large number of Jews who practice it appear to do so with a certain impunity Roman Polanski, after he had drugged and raped an unconscious nymphette got off the hook lightly. All he had to do was buy a one-way ticket to Paris, France. Nothing was done to bring him to justice.

In July 2000, Brazilian police tried to arrest the Israeli vice-consul in Rio de Janeirio, Arie Scher. He was wanted on suspicion of running a child porn ring from the Israeli embassy. Vast quantities of pornographic material had been found on his computer. What happened to Scher? Nothing. Claiming diplomatic immunity, he hopped on a plane to Tel Aviv and that was the last that was heard of him. [15]

Another Jewish pedophile too important to receive serious punishment for h crimes was the son of the famous science fiction writer Isaac Asimov. Found possession of the hugest cache of child pornography in California, a federal crime normally carrying a 20-year sentence, David Asimov was to receive a slap on the wrist: six months home detention.

How is it he got off so lightly? "A look at the players yields the answer," a sensational news report reads. "Asimov's child porn stash was so big that man child victims and perpetrators would have taken a fall had Asimov been zealously prosecuted at trial." [16]

There is one law for the Jews, it seems, and another for us lesser mortals.

4. Jewish Gang involved in Child Murder and Snuff Pornography

If 55 percent of the world's child pornography is produced in the US — according to the British charity National Children's Homes — 23 percent of t world's child porn is produced in Russia. [17]

Whether or not Russian child porn is dominated by Russian Jews remains a nebulous issue. There is a high probability that it is, given that there is more than enough solid evidence of Russian Jewish involvement in sex trafficking, kidnapping, pedophilia, and even child murder in the production of snuff po movies.

See ***endnote 17*** *for more on the subject of the Jewish role in the world child porn industry.*

Here is a news report first published in October 2000. It will give the reader some idea of the depths of depravity to which some pornographers are willi to sink:

JEWISH GANGSTERS RAPED, KILLED CHILDREN AS YOUNG AS TWO ON FILM

> ***Rome, Italy*** — **Italian and Russian police, working together, broke up a ring of Jewish gangsters who had been involved in the manufacture of child rape and snuff pornography.**
>
> **Three Russian Jews and eight Italian Jews were arrested after police discovered they had been kidnapping non-Jewish children between the ages of two and five years old from Russian orphanages, raping the children, and then murdering them on film.**
>
> **Mostly non-Jewish customers, including 1700 nationwide, 600 in Italy, and an unknown number in the United States, paid as much as $20,000 per film to watch little children being raped and murdered.**
>
> **Jewish officials in a major Italian news agency tried to cover the story up, but were circumvented by Italian news reporters, who broadcast scenes from the films live at prime time on Italian television to more than 11 million Italian viewers. Jewish officials then fired the executives responsible, claiming they were spreading "blood libel."**
>
> **Though AP and Reuters both ran stories on the episode, US media conglomerates refused to carry the story on television news, saying that it would prejudice Americans against Jews. [18]**

3-YEAR-OLD GIRL

According to the *Talmud*, 3-year-old girls like this are fair game for sex with adults (Sanhedrin 54b). Killing them is permissible too. "The best of the gentiles deserves to be killed," the revered Rabbi ben Yohai states authoritatively in the *Talmud*. [19]

5. Mass Enslavement through Sex

It is a tragedy that the Jews should have been allowed to deploy pornography to such good effect that they have succeeded in enslaving entire nations, as Circe with a touch of her magic wand enslaved the Greeks, turning men into swine: an apt metaphor for what lies ahead for the masses under their new masters.

> **"A really efficient totalitarian state," Aldous Huxley once noted, "would be one in which the all-powerful executive of political bosses and their army of managers control a population of slaves who do not have to be coerced, because they love their servitude." [20]**

Organized Jewry seems to have no moral scruples about profiting from the sale of pornography. They show no concern about the proven fact that highly addictive and dangerous erototoxins are released into the brain after contact with pornography and can cause progressive brain damage. [21]

Nor do these pornocentric Jews have any qualms of conscience in regard to the wholesale corruption of families, whether Jewish or non-Jewish, or show the slightest concern about the tragic descent of children into the hell of compulsive masturbation and porn addiction — a subject I have covered in detail in a soon-to-be-published article.

These sex entrepreneurs, intent on easy profits, have eagerly sought to provide the masses with the cheapest and deadliest of tranquilizers: opportunities for endless orgasms, by way of a ceaseless flow of pornographic images in the mass media they control.

This is one way to achieve world domination without the need for revolutionary violence or military conquest: to take entire countries and turn them into giant masturbatoria.

The model citizens of the future will be happy masturbators. This enthralling activity will keep them occupied throughout the day. It will make them docile and complacent, sated and semi somnolent, like drugged dung flies in a cesspool or swilling latrine. They will be too busy debauching themselves to mount revolutions or plan revenge attacks against the shadowy elite who have been the architects of their slavery.

These are not the worldchangers and wizards of the future of whom Nietzsche said, *"Behold, I show you the Superman!"* Because of their degeneracies, their weaknesses, they are destined for the dustbin of history.

MEN IN STRIP CLUB

"Behold, I show you the Superman!"
— *Friedrich Nietzsche, Thus Spake Zarathustra*

Here is what Brother Nathanael Kapner has to say on this subject. It is a neat summation. The fact that Kapner is Jewish makes his words even more compelling:

> **"The degradation of Western Christian social life did not merely happen, it was planned, deliberately fostered and spread, as outlined by *The Protocols of the Learned Elders of Zion*. This systematic undermining of the culture of the West continues today.**
>
> **The instruments of this assault on Christian culture and consciousness are the weapons of propaganda: the press, television, cinema, and education. The chief fount of the propaganda is the cinema.**
>
> **From his capital in Hollywood, the Jew spews out an endless series of perverted films to debase and degenerate the youth of America and the Western world. Divorce replaces marriage, abortion replaces birth, and the family becomes the battleground of individual strife. The Jew has attained his goal in destroying Western culture." [22]**

I am afraid I cannot agree with Kapner's sweeping conclusion that the Jews are entirely to blame for the decline and fall of Western culture. If the West has gone to hell in a handbasket, the goyim are as much to blame. Their enthusiastic complicity with their own corrupters has been their undoing.

The society we get is the society we deserve.

6. Conclusion

There is little doubt that the virulent sex epidemic we witness all around us is a deliberately planned sex psyop. This is what governments want.

The Puppet Masters who pull the hidden strings of our Western regimes, all masquerading as democracies, have managed to manufacture exactly what we see when we look around us: widespread neurosis, mass misery, the collapse of moral values, Christianity in ruins, and the coarse brutalization of the common man.

No need for gulags for those who consent to their own chains.

Jewish Professor Boasts of Jewish Pornography used as a Weapon Against Gentiles

FEBRUARY 26, 2007 AT 12:20 AM

Jewish Professor of American History at Aberdeen University in UK, Prof. Nathan Abrams. He boasts that Jews were the driving force of the modern pornographic industry and that their motivation is in part to destroy Gentile morals.

Jewish Professor Says Porn Industry is a Weapon used by Jews Against Gentiles

The following is an excerpt from one of the new additions to my book, **Jewish Supremacism**. *It offers more powerful evidence that reveals the Jewish extremist war against Gentiles, a struggle that we Gentiles are not even allowed to know about, much less resist. The new edition of Jewish Supremacism will be available for purchase in about three weeks at www.davidduke.com*

From the new 2007 Edition of *Jewish Supremacism* **by David Duke**

After learning about the inordinate Jewish involvement in organized crime, historical slavery and modern white slavery, it did not surprise me when I began to learn of their domination of pornography. Just as Jewish scholars faithfully recorded the Jewish domination of the African slave trade so they have also documented their prominent role in pornography.

In a respected and scholarly magazine of Jewish intellectuals, (*The Jewish Quarterly*, winter 2004) Jewish professor Nathan Abrams in an article titled, "Triple Exthnics," proudly documents the leading role of Gentile-hating Jews in pornography.

> **A story little told is that of Jews in Hollywood's seedier cousin, the adult film industry. Perhaps we'd prefer that the 'triple exthnics' didn't exist, but there's no getting away from the fact that secular Jews played (and still continue to play) a disproportionate role throughout the adult film industry in America. Jewish involvement in pornography has a long history in the United States, as Jews have helped transform a fringe subculture into what has become a primary constituent of Americana. These are the 'true blue' Jews. Jewish activity in the porn industry divides into two (sometimes overlapping) groups: pornographers and performers. Though Jews make up only two per cent of the American population, they have been prominent in pornography. ... In the postwar era, America's most notorious pornographer was Reuben Sturman, the 'Walt Disney of Porn'. According to the US Department of Justice, throughout the 1970s Sturman controlled most of the pornography circulating in the country. ... It was said that Sturman did not simply control the adult-entertainment industry; he was the industry. ... Many are entirely secular, Jews in name only. Sturman, however, identified as a Jew – he was a generous donator to Jewish charities. ...**

Abrams shows how the corruption and debasement of Gentiles and Christian morality is a primary part of their motivation for intentionally infecting the Gentile community with pornography.

> **Is there a deeper reason, beyond the mere financial, as to why Jews in particular have become involved in porn? ... Al Goldstein, the publisher of Screw, said "The only reason that Jews are in pornography is that we think that Christ sucks. Catholicism sucks. We don't believe in authoritarianism." Pornography thus becomes a way of defiling Christian culture and, as it penetrates to the very heart of the American mainstream (and is no doubt consumed by those very same WASPs), its subversive character becomes more charged. ... Extending the subversive thesis, Jewish involvement in the X-rated industry can be seen as a proverbial two fingers to the entire WASP establishment in America. ...**

Opposition to Jewish extremist subversion of Gentile, Christian or Muslim morality is frequently defined as anti-Semitic "hatred" in the Jewish dominated media. Abrams writing in a Jewish journal for a presumably Jewish audience writes matter-of-factly about the "atavistic hatred" against us by Jewish pornographers and their motivation to **"weaken the dominant culture in America by moral subversion."**

> **Jewish involvement in porn, by this argument, is the result of an atavistic hatred of Christian authority: they are trying to weaken the dominant culture in America by moral subversion. Astyr remembers having "to run or fight for it in grammar school because I was a Jew. It could very well be that part of my porn career is an 'up yours' to these people." ...**

Obviously, there are no articles in the mainstream media exposing Jewish "atavistic hatred" against Gentiles by the promoters of pornographic depravity. Abrams even goes on to talk about the roots of this revolutionary Jewish attack on European values.

> **Jews were also at the vanguard of the sexual revolution of the 1960s. Wilhelm Reich, Herbert Marcuse and Paul Goodman replaced Marx, Trotsky and Lenin as required revolutionary reading. ... Pacheco was one Jewish porn star who read Reich's intellectual marriage of Freud and Marx. ... In light of the relatively tolerant Jewish view of sex, why are we ashamed of the Jewish role in the porn industry? We might not like it, but the Jewish role in this field has been significant and it is about time it was written about seriously.**

Notice that all those mentioned: Reich, Marcuse, Goodman, Marx, Trotsky, Lenin and Freud are Jews. From Freud to Goodman, all represent a Jewish revolution against traditional European values and morality.

When sick Jewish pornographers are part of the brutality of Jewish organized crime, the results can obviously be horrifically tragic for our people. In 2000, a Jewish "Russian" organized crime ring was uncovered that specialized in kidnapping Russian children, some as young as two years old, from parks and orphanages and then subjecting them to rape, torture and murder, all on video tape. These tapes were sold to thousands of Jewish and Gentile perverts all over the world. When police in Italy were frustrated by lack of action by the authorities they released some of the video footage to an Italian network which then showed some of the graphic images hoping to cause public outrage. Instead of outrage against the Jewish murderers the TV producers suffered outrage for showing the disturbing images.

In spite of the horror and obvious newsworthiness of this international Jewish child porn/murder operation, it received little coverage in the media in the United States. When Seth Bekenstein, the ring's American distributor was arrested, there was little publicity, and in spite of being a part of one of the most horrific criminal activities imaginable, he was sentenced to only 18 months on guilty plea.

Porn is no longer 1950s pictures of voluptuous nude women on a deserted beach. It has become permeated with sadism, masochism, scatology, even sexual molestation, rape and murder of young children. I am no prude. I love the beauty of the human body. But, I do think that this kind of sick criminal activity, in which there is so much exploitation, so much degradation, so much catering to the depths of human depravity, should be fought with constitutional law.

Ironically, with Jewish influence over media, societal mores, and government today, it is legal, even chic to make and sell the sickest pornography showing the sick defilement of women. But, if you have unacceptable political opinions about Jewish supremacism, you may find yourself a political and social pariah, or at worst in prison. We live in a Jewish supremacist world where often the sickest porn is legal while political incorrect opinions will land you in prison.

Vulgar Jewess Sarah Silverman has basically built a whole career on her various bodily functions. The following are the infantile lyrics from a song she sings called *The Poop Song*:

It was brown and it had raisins
And we flushed it for that reason
This is a poop song
This is a poop song
I was walking through the mall
And I had to make a poop
This is a poop song
This is a poop song
We pooped at the mall today
We pooped at the mall

This is who your daughters have to look up to

Another example of disgusting, fecal-laden lyrics comes from degenerate Jewish "Beat" poet Allen Ginsberg. Ginsberg was an open pedophile and founding member of NAMBLA, which stands for the *North American Man/Boy Love Association*. His writings were made popular by his Jewish brethren in the media and consist of the most depraved Jewish filth that one could ever imagine. I hesitate to even repeat anything that this abominable creature had to say but for the sake of getting the full story, I will quote one short passage.

This is from a poem that he wrote about his sick and dying mother (in which he at one point contemplates having sex with) called *Kaddish*:

> "One night, sudden attack—her noise in the bathroom—like croaking up her soul—convulsions and red vomit coming out of her mouth—diarrhea water exploding from her behind—on all fours in front of the toilet—urine running between her legs—left retching on the tile floor smeared with her black feces—unfainted—"(7)

Palestine

Israeli Jews over in occupied Palestine have made playing with their feces into somewhat of a natural pastime. Just look at this video where they pay one Israeli Jew to have another Jew take a dump on his head, while the rest of the degenerate Jews cheer them on. Pretty sickening stuff. Other favorite sports of the occupying Jewish degenerates are spraying feces at Palestinians and their homes with a giant fire hose and defecating all over the inside of Palestinian homes after they've invaded and ransacked them.

One Palestinian woman described the antics of the Israeli occupational army of cowards as thus:

> "The smell was terrible. The food was everywhere. Very disgusting smell. They put shit in the sinks, shit everywhere. Our clothes were everywhere. The last time they invaded, it was easy. They broke everything and we fixed it. But this time, they put shit everywhere: in cupboards, on beds — my bed is full of shit."

She goes on:

> "A minute ago, Sabreen opened her clothing cupboard: there was a bowl of shit in it! They used our clothes for the toilet. They broke the door of the bathroom and brought it into our room. I don't know why."(8)

The Holohoax

Anyone with two brain cells to click together knows by now that the Holocaust is a complete fraud. All of the stories about it are completely made up, and they almost all include feces. One "survivor" described his experience in the camps like this:

> "Filth was also tremendous. Filth. It was filthy. It was filthy even in the building where we lived. I mean, in the winter time. I mean, the toilet was...it was ice. It was all ice. And the feces and the urine all over, was overflowing...overflowing there."(9)

Perhaps the most comical "Holocaust" story is the one by Irene Zisblatt, the infamous "defecating diamonds" hoaxer from top Jew propagandist Steven Spielberg's Oscar-winning *Lost Days* documentary. She claims to have preserved diamonds that her mother gave her by eating them daily and then defecating them out, presumably on the floor of the toilet house since there's no way she could've retrieved them from the deep, wide-open holes generally used for human waste. According to the story, she then proceeded to rummage through her feces on the floor of the toilet house with her bare hands to find the diamonds, and then ate them again without having washed them, all to repeat the process the next day for two years straight. What the hell kind of sick mind would come up with a story like that?

In another fictional tale from this demented liar, she explains being inside of a homicidal gas chamber in which the Jews were forced to wade around naked in their own bodily fluids. If they felt the need to go to the bathroom they had no choice but to "go on their stood" down the legs and on their feet.

Fecal freak Spielberg's other Oscar-winning Holohoax propaganda film *Schindler's List* features a scene in which young kids hideout from the "evil Nazis" inside of a toilet—neck deep in urine and feces.

One Jewish author, Joseph E. Tenenbaum, actually wrote about Jews having sex while inside of a dung-filled toilet. Imagine for a second crawling inside of a toilet, and then having sex with someone. These people are disgusting beyond belief.

On page 145 of *In Search of a Lost People: The Old and the New Poland* he writes:

> "I heard harrowing stories of these latrines of Birkenau, of how the children hid for hours in the feces, to escape gassing, how love went on in these places and **sexes mated in the dung under the threat of instantaneous death when discovered**; how business thrived and gossip thrilled in these latrines. **If you fell in on the heat of passion, you could drown!!**" [emphasis added](10)

Psychoanalysis

The Jewish pseudo-science of psychoanalysis is also loaded with fecal-minded personalities. The coke-sniffing Jew who invented it, Sigmund Freud, was himself borderline obsessed with bathroom behavior and described the second stage of his thoroughly discredited "psychosexual development" theory as the "anal stage," in which, around the age of two, pleasurable sensations become centered on the anus, and children become fascinated by their own feces. This is the stage of life where "anal personalities" could develop, he claimed.

The first of his "psychosexual development" stages is the "oral stag,e" and the third is the "phallic stage," by the way—just to give you an idea of how sick the man was.

The Jew Dr. Mortimer Ostow, in his book "*Myth and Madness: The Psychodynamics of anti-Semitism*," theorizes that antisemitism is actually a search's hatred toward his father (as a result of poor childhood potty training) being projected on to the Jews.(11)

A bizarre offshoot of psychology led by possible Jew Lloyd deMause called *Psychohistory* takes the childhood toilet trauma a step further and asserts that both the so-called Holocaust and WWII were natural outcomes of incredibly sadistic behavior practiced on infants by the parents.(12)

Here are a few passages from an over-the-top, anti-German hate fantasy written by deMause:

> "A visitor from England described the German baby as "a piteous object; it is pinioned and bound up like a mummmy in yards of bandages...it is never bathed ... it is rubbed in a cruel way with soap and water until it is eight or ten months old." Their feces and urine was so regularly left on their bodies that they were covered with lice and other vermin, attracted to the smell, and since the tight bandages were very tight and covered their arms as well as their bodies, they could not prevent the vermin from drinking their blood. Their parents considered them so disgusting, they called them "filthy lice-covered babies," and often put them, swaddled, in a bag, which they hung on the wall or on a tree while the mothers did other tasks.The fear of being poisoned by lice was daily embedded in the fearful alter of the baby . . . "

The sub-human then proceeds to project his German shit-baby theory onto the so-called mistreatment of Jews by the Third Reich:

> "Jews were rounded up and made into "Bad Selves"—shit-babies —putting them into overcrowded death camps and telling them: "You'll be eaten by lice, you'll rot in your own shit...All are going to die." Jews were called "pestiferous lice" and "filthy shit-covered babies," forced to lie in barracks like they themselves were forced to live in their swaddling bands, "awash with urine and feces, forced to eat their feces, and finally drowned in excrement." Repeating their parents' curses at them as shit-babies, their guards told them "You'll be eaten by lice; you'll rot in your own shit, you filthy shitface." As they killed Jewish guards told them what they imagined their mothers felt as they killed their newborn siblings: "Because you're dirty you have to die." They were all Bad Shit-Babies. "They had to die. If they were not killed, Nazis said they would "gobble up the breast of Germany!"(13)

The Jewish journalist Michael Lewis also wrote extensively about the supposed fecal obsession of the Germans. In an article entitled *"It's the Economy, Dummkopf!"* in the September 2011 edition of *Vanity Fair* he goes on a long-winded, fecal-filled rant, making outrageous claims such as the following:

> "After the war, Hitler's doctors told U.S. intelligence officers that their patient had devoted surprising energy to examining his own feces, and there was pretty strong evidence that one of his favorite things to do with women was to have them poop on him."

and

> "Naked women fought in a metaphorical ring of filth while the spectators wore plastic capes, a sort of head condom, to avoid being splattered. "Thus," wrote Dundes, "the audience can remain clean while enjoying dirt!" Germans longed to be near the shit, but not in it."(13)

That is just a few examples of the type of world that we live in today, where it's perfectly acceptable to go on hate-filled rants generalizing all Germans as inherently evil people, yet any mention of a Jewish wrongdoing will have you branded as a "hater", "nazi", "bigot", "racist", and "antisemite".

Well some of us aren't afraid of these labels, and in fact, we wear them as badges of honor.

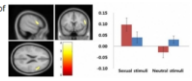
Brain Studies on Porn Users

Submitted by admin on Thu, 07/31/2014 - 17:55



This page lists all the studies assessing the brain structure and functioning of Internet porn users. To date every study offers support for the porn addiction model. The results of these 24 studies are consistent with 140+ Internet addiction **brain** studies, many of which also include internet porn use. All support the premise that internet porn use can cause addiction-related brain changes, as do recent neuroscience-based reviews of the literature:

- Neuroscience of Internet Pornography Addiction: A Review and Update (2015). The review also critiques two recent headline-grabbing EEG studies which purport to have "debunked" porn addiction.
- Sex Addiction as a Disease: Evidence for Assessment, Diagnosis, and Response to Critics (2015), which provides a chart that takes on specific criticisms and offers citations that counter them.
- Should Compulsive Sexual Behavior be Considered an Addiction? (2016). Excerpt: *"Overlapping features exist between CSB and substance use disorders. Common neurotransmitter systems may contribute to CSB and substance use disorders, and recent neuroimaging studies highlight similarities relating to craving and attentional biases. Similar pharmacological and psychotherapeutic treatments may be applicable to CSB and substance addictions"*
- Compulsive Sexual Behaviour as a Behavioural Addiction: The Impact of the Internet and Other Issues (2016). Excerpts: *"more emphasis is needed on the characteristics of the internet as these may facilitate problematic sexual behaviour."* and *"clinical evidence from those who help and treat such individuals should be given greater credence by the psychiatric community."*

"Brain Studies" (fMRI, MRI, EEG, Neuro-endocrine):

1. Brain Structure and Functional Connectivity Associated With Pornography Consumption: The Brain on Porn (2014) - A German fMRI study which found 3 significant addiction-related brain changes correlating with the amount of porn consumed. It also found that more porn use correlated with less reward circuit activation while briefly viewing sexual photos. Researchers stated their findings indicated desensitization, and possibly tolerance, the need for greater stimulation.
2. Neural Correlates of Sexual Cue Reactivity in Individuals with and without Compulsive Sexual Behaviours (2014) - The first in a series of Cambridge University studies found the same brain activity as seen in drug addicts and alcoholics. It also found that porn addicts fit the accepted addiction model of wanting "it" more, but *not* liking "it" more. The researchers also reported that 60% of subjects (average age: 25) had difficulty achieving erections/arousal with real partners, yet could achieve erections with porn.
3. Enhanced Attentional Bias towards Sexually Explicit Cues in Individuals with and without Compulsive Sexual Behaviours (2014) - The second Cambridge University study. An excerpt: *"Our findings of enhanced attentional bias... suggest possible overlaps with enhanced attentional bias observed in studies of drug cues in disorders of addictions. These findings converge with recent findings of neural reactivity to sexually explicit cues in [porn addicts] in a network similar to that implicated in drug-cue-reactivity studies and provide support for incentive motivation theories of addiction underlying the aberrant response to sexual cues in [porn*
5. Neural Substrates of Sexual Desire in Individuals with Problematic Hypersexual Behavior (2015) - This Korean fMRI study replicates other brain studies on porn users. Like the Cambridge University studies it found cue-induced brain activation patterns in sex addicts which mirrored the patterns of drug addicts. In line with several German studies it found alterations in the prefrontal cortex which match the changes observed in drug addicts. What's new is that the findings perfectly matched the prefrontal cortex patterns observed in drug addicts: Greater cue-reactivity to sexual images, yet inhibited response to other normal stimuli.
6. Sexual Desire, not Hypersexuality, is Related to Neurophysiological Responses Elicited by Sexual Images (2013) - This EEG study was touted in the media as evidence *against* the existence of porn addiction. Not so. This SPAN Lab study, like #7 below, actually supports the existence of porn addiction. Why? The study reported higher EEG readings (P300) when subjects were exposed to porn photos. Studies consistently show that an elevated P300 occurs when addicts are exposed to cues (such as images) related to their addiction. However, due to methodological flaws the findings are uninterpretable: 1) subjects were heterogeneous (males, females, non-heterosexuals); 2) subjects were not screened for mental disorders or addictions; 3) study had no control group for comparison; 4) questionnaires were not validated for porn addiction. In line with the Cambridge studies, this EEG study reported greater cue-reactivity to porn correlated with less desire for partnered sex. Neither finding matched the headlines. Three peer-reviewed papers expose the truth: 1, 2, 3. Read much more.
7. Modulation of Late Positive Potentials by Sexual Images in Problem Users and Controls Inconsistent with "Porn Addiction" (2015) - Another SPAN Lab EEG study comparing the 2013 subjects from **the above study** to an actual control group (yet suffered from the same methodological flaws named above). The results: compared to controls porn addicts had less response to one-second exposure to photos of vanilla porn. The lead author, Nicole Prause, claims these results debunk porn addiction. However, these findings align perfectly with Kühn & Gallinat (2014), which found that more porn use correlated with less brain activation in response to pictures of vanilla porn. In other words, "porn addicts" were desensitized and needed greater stimulation than non-addicts. Three peer-reviewed papers agree with YBOP: 1, 2, 3. Read much more.
8. HPA axis dysregulation in men with hypersexual disorder (2015) - The Hypothalamus-Pituitary-Adrenal (HPA) axis is the central player in our stress response. Addictions alter the brain's stress circuits leading to a dysfunctional HPA axis. This study on sex addicts (hypersexuals) found altered stress responses that mirror drug addiction.
9. Increased sensitivity to erotic reward cues in subjects with compulsive sexual behaviors (2015) - (In the press) This upcoming fMRI study compared reward center activity of controls to compulsive porn users. Compared to controls compulsive porn users had far greater reward center activity and attentional bias when exposed to sexual cues. Both findings align with the two Cambridge studies (above), and the accepted model of addiction - incentive sensitization.
10. Ventral striatum activity when watching preferred pornographic pictures is correlated with symptoms of Internet pornography addiction (2016) - Finding #1: Reward center activity (ventral striatum) was higher for preferred pornographic pictures. Finding #2: Ventral striatum reactivity correlated with the internet sex addiction score. Both findings indicate sensitization and align with the addiction model. The authors state that the *"Neural basis of Internet pornoraphy addiction is comparable to other addictions."*
11. Altered Appetitive Conditioning and Neural Connectivity in Subjects With Compulsive Sexual Behavior (2016) - A German fMRI study replicating two major findings from Voon et al., 2014 and Kuhn & Gallinat 2014. Main Findings: The neural correlates of appetitive conditioning and neural connectivity were altered in the CSB group. According to the researchers, the first alteration - heightened amygdala activation - might reflect facilitated conditioning (greater "wiring" to previously neutral cues predicting porn images). The second alteration - decreased connectivity between the ventral striatum and the prefrontal cortex - could be a marker for impaired ability to control impulses. Said the researchers, *"These [alterations] are in line with other studies investigating the neural correlates of addiction disorders and impulse control deficits."* The findings of greater amygdalar activation to cues (sensitization) and decreased connectivity between the reward center and the prefrontal cortex (hypofrontality) are two of the major brain changes seen in substance addiction. In addition, 3 of the 20 compulsive porn users suffered from "orgasmic-erection disorder".
12. Neurobiology of Compulsive Sexual Behavior: Emerging Science (2016) - Excerpt: *"Given some similarities between CSB and drug addictions, interventions effective for addictions may hold promise for CSB, thus providing insight into future research directions to investigate this possibility directly."*

The above studies are **all** the "brain studies" published (or in the press) on internet porn users.

Together these brain studies found:

1. The 3 major addiction-related brain changes: sensitization, desensitization, and hypofrontality.
2. More porn use correlated with less grey matter in the reward circuit (dorsal striatum).
3. More porn use correlated with less reward circuit activation when briefly viewing sexual images.
4. More porn use correlated with disrupted neural connections between the reward circuit and prefrontal cortex.
5. Addicts had greater prefrontal activity to sexual cues, but less brain activity to normal stimuli (matches drug addiction).
6. 60% of compulsive porn addicted subjects in one study experienced ED or low libido with partners, but not with porn: all stated that internet porn use caused their ED/low libido.
7. Enhanced attentional bias comparable to drug users. Indicates sensitization (a product of DeltaFosb).
8. Greater wanting & craving for porn, but not greater liking. This aligns with the accepted model of addiction - incentive sensitization.
9. The younger the porn users the greater the cue-induced reactivity in the reward center.
10. Higher EEG (P300) readings when porn users were exposed to porn cues (which occurs in other addictions).
11. Less desire for sex with a person correlating with greater cue-reactivity to porn images.
12. More porn use correlated with lower LPP amplitude when briefly viewing sexual photos: indicates habituation or desensitization.
13. Dysfunctional HPA axis which reflects altered brain stress circuits, which occurs in drug addictions.

Neuro-Psychological Studies on Porn Users (with excerpts):

1. Watching Pornographic Pictures on the Internet: Role of Sexual Arousal Ratings and Psychological-Psychiatric Symptoms for Using Internet Sex Sites Excessively (2011) - *Results indicate that self-reported problems in daily life linked to online sexual activities were predicted by subjective sexual arousal ratings of the pornographic material, global severity of psychological symptoms, and the number of sex applications used when being on Internet sex sites in daily life, while the time spent on Internet sex sites (minutes per day) did not significantly contribute to explanation of variance in IATsex score. We see some parallels between cognitive and brain mechanisms potentially contributing to the maintenance of excessive cybersex and those described for individuals with substance dependence*
2. Pornographic picture processing interferes with working memory performance (2013) - *Some individuals report problems during and after Internet sex engagement, such as missing sleep and forgetting appointments, which are associated with negative life consequences. One mechanism potentially leading to these kinds of problems is that sexual arousal during Internet sex might interfere with working memory (WM) capacity, resulting in a neglect of relevant environmental information and therefore disadvantageous decision making. Results revealed worse WM performance in the pornographic picture condition of the 4-back task compared with the three remaining picture conditions. Findings are discussed with respect to Internet addiction because WM interference by addiction-related cues is well known from substance dependencies.*
3. Sexual Picture Processing Interferes with Decision-Making Under Ambiguity (2013) - *Decision-making performance was worse when sexual pictures were associated with disadvantageous card decks compared to performance when the sexual pictures were linked to the advantageous decks. Subjective sexual arousal moderated the relationship between task condition and decision-making performance. This study emphasized that sexual arousal interfered with decision-making, which may explain why some individuals experience negative consequences in the context of cybersex use.*
4. Cybersex addiction: Experienced sexual arousal when watching pornography and not real-life sexual contacts makes the difference (2013) - *The results show that indicators of sexual arousal and craving to Internet pornographic cues predicted tendencies towards cybersex addiction in the first study. Moreover, it was shown that problematic cybersex users report greater sexual arousal and craving reactions resulting from pornographic cue presentation. In both studies, the number and the quality with real-life sexual contacts were not associated to cybersex addiction. The results support the gratification hypothesis, which assumes reinforcement, learning mechanisms, and craving to be relevant processes in the development and maintenance of cybersex addiction. Poor or unsatisfying sexual real life contacts cannot sufficiently explain cybersex addiction.*
5. Cybersex addiction in heterosexual female users of internet pornography can be explained by gratification hypothesis (2014) - *Results indicated that Internet porn users rated pornographic pictures as more arousing and reported greater craving due to pornographic picture presentation compared with non-users. Moreover, craving, sexual arousal rating of pictures, sensitivity to sexual excitation, problematic sexual behavior, and severity of psychological symptoms predicted tendencies toward cybersex addiction in porn users. Being in a relationship, number of sexual contacts, satisfaction with sexual contacts, and use of interactive cybersex were not associated with cybersex addiction.*
6. Empirical Evidence and Theoretical Considerations on Factors Contributing to Cybersex Addiction From a Cognitive Behavioral View (2014) - *Previous work suggests that some individuals might be vulnerable to CA, while positive reinforcement and cue-reactivity are considered to be core mechanisms of CA development. In this study, 155 heterosexual males rated 100 pornographic pictures and indicated their increase of sexual arousal. Moreover, tendencies towards CA, sensitivity to sexual excitation, and dysfunctional use of sex in general were assessed. The results of the study show that there are factors of vulnerability to CA and provide evidence for the role of sexual gratification and dysfunctional coping in the development of CA.*
7. Prefrontal control and internet addiction: a theoretical model and review of neuropsychological and neuroimaging findings (2015) - *Consistent with this, results from functional neuroimaging and other neuropsychological studies demonstrate that cue-reactivity, craving, and decision making are important concepts for understanding Internet addiction. The findings on reductions in executive control are consistent with other behavioral addictions, such as pathological gambling. They also emphasize the classification of the phenomenon as an addiction, because there are also several similarities with findings in substance dependency. Moreover, the results of the current study are comparable to findings from substance dependency research and emphasize analogies between cybersex addiction and substance dependencies or other behavioral addictions.*
8. Implicit associations in cybersex addiction: Adaption of an Implicit Association Test with pornographic pictures. (2015) - *Recent studies show similarities between cybersex addiction and substance dependencies and argue to classify cybersex addiction as a behavioral addiction. In substance dependency, implicit associations are known to play a crucial role. Results show positive relationships between implicit associations of pornographic pictures with positive emotions and tendencies towards cybersex addiction, problematic sexual behavior, sensitivity towards sexual excitation as well as subjective craving.*
9. Symptoms of cybersex addiction can be linked to both approaching and avoiding pornographic stimuli: results from an analog sample of regular cybersex users (2015) - *Results showed that individuals with tendencies toward cybersex addiction tended to either approach or avoid pornographic stimuli. Additionally, moderated regression analyses revealed that individuals with high sexual excitation and problematic sexual behavior who showed high approach/avoidance tendencies, reported higher symptoms of cybersex addiction. Analogous to substance dependencies, results suggest that both approach and avoidance tendencies might play a role in cybersex addiction.*
10. Getting stuck with pornography? Overuse or neglect of cybersex cues in a multitasking situation is related to symptoms of cybersex addiction (2015) - *Individuals with tendencies towards cybersex addiction seem to have either an inclination to avoid or to approach the pornographic material, as discussed in motivational models of addiction. The results of the current study point towards a role of executive control functions, i.e. functions mediated by the prefrontal cortex, for the development and maintenance of problematic cybersex use (as suggested by Brand et al., 2014). Particularly a reduced ability to monitor consumption and to switch between pornographic material and other contents in a goal adequate manner may be one mechanism in the development and maintenance of cybersex addiction.*
11. Trading Later Rewards for Current Pleasure: Pornography Consumption and Delay Discounting (2015) - *Study 1: Participants completed a pornography use questionnaire and a delay discounting task at Time 1 and then again four weeks later. Participants reporting higher initial pornography use demonstrated a higher delay discounting rate at Time 2, controlling for initial delay discounting. Study 2: Participants who abstained from pornography use demonstrated lower delay discounting than participants who abstained from their favorite food. The finding suggests that Internet pornography is a sexual reward that contributes to delay discounting differently than other natural rewards. It is therefore important to treat pornography as a unique stimulus in reward, impulsivity, and addiction studies and to apply this accordingly in individual as well as relational treatment.*
12. Sexual Excitability and Dysfunctional Coping Determine Cybersex Addiction in Homosexual Males (2015) - *Recent findings have demonstrated an association between CyberSex Addiction (CA) severity and indicators of sexual excitability, and that coping by sexual behaviors mediated the relationship between sexual excitability and CA symptoms. The aim of this study was to test this mediation in a sample of homosexual males. Questionnaires assessed symptoms of CA, sensitivity to sexual excitation, pornography use motivation, problematic sexual behavior, psychological symptoms, and sexual behaviors in real life and online. Moreover, participants viewed pornographic videos and indicated their sexual arousal before and after the video presentation. Results showed strong correlations between CA symptoms and indicators of sexual arousal and sexual excitability, coping by sexual behaviors, and psychological symptoms. CA was not associated with offline sexual behaviors and weekly cybersex use time. Coping by sexual behaviors partially mediated the relationship between sexual excitability and CA. The results are comparable with those reported for heterosexual males and females in previous studies and are discussed against the background of theoretical assumptions of CA, which highlight the role of positive and negative reinforcement due to cybersex use.*

Everyone Should Know These Statistics on Homosexuals

http://www.traditioninaction.org/HotTopics/a02rStatistcs.html

One study reports 70% of homosexuals admitting to having sex only one time with over 50% of their partners (3).

One study reports that the average homosexual has between 20 and 106 partners per year (6). The average heterosexual has 8 partners in a lifetime.

Many homosexual sexual encounters occur while drunk, high on drugs, or in an orgy setting (7).

Many homosexuals don't pay heed to warnings of their lifestyles: "Knowledge of health guidelines was quite high, but this knowledge had no relation to sexual behavior" (16).

Homosexuals got homosexuality removed from the list of mental illnesses in the early 70s by storming the annual American Psychiatric Association (APA) conference on successive years. "Guerrilla theater tactics and more straight-forward shouting matches characterized their presence" (2). Since homosexuality has been removed from the APA list of mental illnesses, so has pedophilia (except when the adult feels "subjective distress") (27).

Homosexuals account for 3-4% of all gonorrhea cases, 60% of all syphilis cases, and 17% of all hospital admissions (other than for STDs) in the United States (5). They make up only 1-2% of the population.

Homosexuals live unhealthy lifestyles, and have historically accounted for the bulk of syphilis, gonorrhea, Hepatitis B, the "gay bowel syndrome" (which attacks the intestinal tract), tuberculosis and cytomegalovirus (27).

73% of psychiatrists say homosexuals are less happy than the average person, and of those psychiatrists, 70% say that the unhappiness is NOT due to social stigmatization (13).

25-33% of homosexuals and lesbians are alcoholics (11).

Of homosexuals questioned in one study reports that 43% admit to 500 or more partners in a lifetime, 28% admit to 1000 or more in a lifetime, and of these people, 79% say that half of those partners are total strangers, and 70% of those sexual contacts are one night stands (or, as one homosexual admits in the film "The Castro", one minute stands) (3). Also, it is a favorite past-time of many homosexuals to go to "cruisy areas" and have anonymous sex.

78% of homosexuals are affected by STDs (20).

Judge John Martaugh, chief magistrate of the New York City Criminal Court has said, "Homosexuals account for half the murders in large cities" (10).

Captain William Riddle of the Los Angeles Police says, "30,000 sexually abused children in Los Angeles were victims of homosexuals" (10).

50% of suicides can be attributed to homosexuals (10).

Dr. Daniel Capron, a practicing psychiatrist, says, "Homosexuality by definition is not healthy and wholesome. The homosexual person, at best, will be unhappier and more unfulfilled than the sexually normal person" (10). For other psychiatrists who believe that homosexuality is wrong, please see National Association for Research and Therapy of Homosexuality.

It takes approximately $300,000 to take care of each AIDS victim, so thanks to the promiscuous lifestyle of homosexuals, medical insurance rates have been skyrocketing for all of us(10).

Homosexuals were responsible for spreading AIDS in the United States, and then raised up violent groups like Act Up and Ground Zero to complain about it. Even today, homosexuals account for well over 50% of the AIDS cases in the United States, which is quite a large number considering that they account for only 1-2% of the population.

Homosexuals account for a disproportionate number of hepatitis cases: 70-80% in San Francisco, 29% in Denver, 66% in New York City, 56% in Toronto, 42% in Montreal, and 26% in Melbourne (8).

37% of homosexuals engage in sadomasochism, which accounts for many accidental deaths. In San Francisco, classes were held to teach homosexuals how to not kill their partners during sadomasochism (8).

41% of homosexuals say they have had sex with strangers in public restrooms, 60% say they have had sex with strangers in bathhouses, and 64% of these encounters have involved the use of illegal drugs (8).

Depending on the city, 39-59% of homosexuals are infected with intestinal parasites like worms, flukes and amoebae, which is common in filthy third world countries (8).

The median age of death of homosexuals is 42 (only 9% live past age 65). This drops to 39 if the cause of death is AIDS. The median age of death of a married heterosexual man is 75 (8).

The median age of death of lesbians is 45 (only 24% live past age 65). The median age of death of a married heterosexual woman is 79 (8).

Homosexuals are 100 times more likely to be murdered (usually by another homosexual) than the average person, 25 times more likely to commit suicide, and 19 times more likely to die in a traffic accident (8).

21% of lesbians die of murder, suicide or traffic accident, which is at a rate of 534 times higher than the number of white heterosexual females aged 25-44 who die of these things(8).

50% of the calls to a hotline to report "queer bashing" involved domestic violence (i.e., homosexuals beating up other homosexuals) (18).

About 50% of the women on death row are lesbians (12). Homosexuals prey on children.

33% of homosexuals ADMIT to minor/adult sex (7).

There is a notable homosexual group, consisting of thousands of members, known as the North American Man and Boy Love Association (NAMBLA). This is a child molesting homosexual group whose cry is "SEX BEFORE 8 BEFORE IT'S TOO LATE." This group can be seen marching in most major homosexual parades across the United States.

Homosexuals commit more than 33% of all reported child molestations in the United States, which, assuming homosexuals make up 2% of the population, means that 1 in 20 homosexuals is a child molestor, while 1 in 490 heterosexuals is a child molestor (19).

73% of all homosexuals have had sex with boys under 19 years of age (9).

Many homosexuals admit that they are pedophiles: "The love between men and boys is at the foundation of homosexuality" (22).

Because homosexuals can't reproduce naturally, they resort to recruiting children. Homosexuals can be heard chanting "TEN PERCENT IS NOT ENOUGH, RECRUIT, RECRUIT, RECRUIT" in their homosexual parades. A group called the "Lesbian Avengers" prides itself on trying to recruit young girls. They print "WE RECRUIT" on their literature. Some other homosexuals aren't as overt about this, but rather try to infiltrate society and get into positions where they will have access to the malleable minds of young children (e.g., the clergy, teachers, Boy Scout leaders, etc.) (8). See the DC Lesbian Avengers web page, and DC Lesbian Avengers Press Release, where they threaten to recruit little boys and girls. Also, see AFA Action Alert.

[–] ▶ **Why Sexuality is Fucked: The Fall of the Original Male and the Rise of the Cucked Betas** Anonymous 05/07/16 (Sat) 11:17:28 ID: 2812e9 No.5926004 [Watch Thread]

Hello dear /pol/ - I hope you find yourselves having a good day. You might remember an anon a while ago that posted about his porn addiction and wrote a short text on why porn was probably the cause that males are so cucked in recent years. At the time a lot of that came from reading past the NoFap's movement loads of anecdotal evidence and bro-science and examining some of its valid points. But alas, I was not satisfied.

There was something there. Something that wanted to be found.

I've gone off and done actual research - anonymous interviews recruiting around boards, lots of books on the field of Sexology (back when Psychology was real and before the field became fetishistic bullshit and tranny justifications, so some odd forty years ago) and other heaps of bullshit, trying to sort the delusional from the actual knowledge from outright kike lies.

This is going to be quite long - I'll examine the crux of the issue first, then go off and examine several rising fetishes and the dangers of several kinds of thinking, concluding with suggestions of how you - yes, you - should behave to create the new male, the one that should rise from this swamp of leftist crap. By no means is this a defeatist or MGTOW-supporting text - I think this issue should be fixed, but it starts with you.

If you have any of the issues described in this essay, please seek to improve yourself. Realize it isn't natural to you, and seek to stop them.

Here we go.

The Modern Times, the Downfall of Masculine Thinking and Autogynephilia

First of all, let us examine the recent events on the world that have changed how the modern human views sexuality. Not only have family values gone down - rather, I'd say, fucking plummeted - but the rise of fast-access Internet Porn, filled with all kinds of imagery, have also corrupted the youth's natural sexual development. With sex viewed as just a way of release and said pornography widely available, the modern teenager - and many of you, I'm sure - was quick to hop in the internet porn bandwagon, also in an era where sex became more acceptable to talk about in public and media.

Now, many of you could confirm and well, common sense also shows that the first fantasies of the human male, and the types of video he watches, are usually simple, heterosexual videos of a man and a woman, or a man and several women, with intercourse being dominated by the male. Many even quickly go to fetishes such as forced intercourse, with domination by their part being the crux of the original, male fetish. This is in accordance with natural male sexual thought - not that we want to just go off and rape people, but rather, that we seek our own pleasure, the usage of our genital organs on women we find attractive to find release.

Now, my interviews had a disturbing common point at about this stage - as humans are humans and excess is the key to change, many of them lost interest and switched to other forms of pornography. The thing that disturbed me is that almost all of them - a staggering 80% of a control group of quite a few dozen - switched to lesbian porn. Porn of a woman, with another woman.

Now - many of you will argue that's natural. A heterosexual male does not want to see penises, and before, many males simply got off to pictures of nude women on magazines. But to explain why this is actually harmful, I have to get into autogynephilia. (Don't worry, this eventually comes around and explains all forms of porn are kinda awful for the brain. Not defending dicks > tits here)

Autogynephilia was a concept introduced in sexology that was quickly shot down as "transphobic" since it implied men who have a desire to be women developed this delusion as part of this issue, rather than being born trannies as lefties imply. That the establishment - or the kike, if your prefer - denied this so readily is no fucking coincidence. Because here lies the crux of the issue.

▶ Anonymous 05/07/16 (Sat) 11:22:51 ID: de668b No.5926065

(Had to change IDs with a proxy, posting not working.)

Autogynephilia describes a mental issue where the man is physically aroused by the thought of projecting himself as the woman during sex - and this has SKYROCKETED in recent years. And the very core of this problem is a brain mismatch over pleasure - instead of associating his penis - and the act of inserting said penis into a woman - with pleasure, the man instead associates parts of the female body with pleasure. While this may seem normal, this means that the man associates sexy and getting off not with his male ejaculation, but with the release and moans of the female.

This is where we come back to lesbian porn. There is no male - at all - for the man to project himself into. Unlike magazine pictures - where the fantasy came from imagining you, yourself, fucking that hot woman - there's nowhere for the man to project himself. Watching two women have sex is just that - you're getting off to that, because your natural male brain finds the female parts arousing, but in the background, you're learning - molding your brain - to associating their moans and releases with pleasure, instead of your own.

Now we take a short detour - into the culture of sex in media at the time.

Before, it was unnacceptable to even mention the sexual on TV or media, but with feminism and the sexual revolution, it was suddenly fucking ok to talk about dick sizes on modern television. With this bullshit, started the concerns that "women were sexually frustrated" (there's little evidence for this bullcrap, except if you were an abusive husband) and also the fucking fetishization of the length of the male penis. I won't argue this has no effect on sexual performance, but the average female vagina only goes in for five or six inches, about the average male penis. Their main center of pleasure requires no length to reach, and the famed G-spot is about three inches in, a bit curve upwards - so this was mostly rumours, a new way for women to belittle males in their newfound would-be "sexual superiority", where they now controlled the terms of engagemen. Men became obsessed whether they were good enough - and in my opinion that stress, that constant newfound concern if they could please the woman up to these absurd standards, coupled with the fetish slope described above, adapted many minds to seek fetishes in which their participation or performance was not as important to non-existent - from seemingly innocent shit like simply being dominated by a woman to gay sex and even cuckold porn.

Of 20 guys interviewed who said their main fetish was crossdressing/trapping themselves, one of them taking female hormones, ALL twenty confirmed the slope in porn seen above, from straight porn to rape to lesbian to transexual porn and so forth.

Because they derive their pleasure from more female sources which they've been associating it with - be it replacing the woman during sex, taking the submissive role or even seeing another guy with women, something that could start from even normal, heterosexual pornography - this form of getting off, coupled with the natural dopamine rush of an act considered tabboo in their minds, causes many men to swerve to this side of the curve.

"But it's just fetishes, I don't act out on them on real life."

▶ Anonymous 05/07/16 (Sat) 11:23:17 ID: de668b No.5926067

But they're still acting on you, and even then, there's no guarantee it stays that way forever. All four fucking trannies I managed to interview, plus one who had started hormone treatment, said that they didn't identify as female before going very deep into a crossdressing/"sissy" (as they call forced feminization fetishes) fetish before making the decision. This is actually such an issue in the tranny community they often have FAQs on the issue and several sites discuss where to draw the line between fetishism and the "real thing". (Even though I'd argue one's just a harsher form of the other, really)

In short: The pornography slippery slope causes you to take a dark path, autogynphilia developing to some degree whether your new fetish is getting raped by monster girls or being a trap, you should know that shit is NOT natural. It is the fault of porn and our current, warped sexual culture.

A brief anecdote on several fetishes

In this section I'll simply go through several of the fetishes described above and describe their psychological origin. This should explain their prevalence in recent years - and perhaps in your life, too.

One might ask the point of this. The point of it is to TERRIFY you. If I have to scare you into realizing you have a fucking problem, I'll go through patterns you'll find familiar until you are very much scared.

BDSM/Subjugation/Dominance by woman - As said, most of this comes from man's recent self-esteem problems on whether or not he can please females. Faced with issues he thinks he can't fix, your brain adapts by making you get off on roles that necessitate less effort or performance, and wires itself to get off on humiliation.

▶ Anonymous 05/07/16 (Sat) 11:23:53 ID: de668b No.5926075

Cuckold/Interracial Cuckold/Beastiality Porn - Same shit as above. You might be interested in why so many white guys are into interracial garbage, and it's mostly because - as much as you try to deny it, lefty bastard - everyone's still fucking racist, to some degree, even if unlike /pol/tards like us. The white brain still sees blacks as inferior and more savage, because of their origins as slaves. In a way, the rush one gets from interracial porn is the same as the one from beastiality - it's the rush of seeing something inhumane happen. It's why there's a lot less white guy on black girl porn, since the appeal in there is the reverse - but surprisingly, a lot of black guys have a fetish for getting dommed by white guys, in a reversed racial form of this. Oh, and the BBC crap comes from this fountain too - same reason beastiality porn uses horses a lot, so porn focuses on pretending they're bigger by cherry-picking actors. The reason size is less important in white on white normal porn is because the main character there is supposed to be a self-insert for the viewer, different from the interracial where the appeal is the same as cuck shit.

Furry Crap - The appeal of the different and alien. Basically, in a fursuit, it doesn't matter for shit if you're fat, lonely and with a micropenis, because they're all freaks. By submitting himself to such conditions, the man avoids the issue described above of being worried about not being good enough, narrowly side-stepping the whole shitstorm above. It's still crap and freaky.

Hentai/Japshit - I'm not going to pretend japshit doesn't have the same risk - the porn slippery slope is real, and the japs are known for loving their fucking traps. You could argue it's a little less worse since there's a lot more still pictures and self-inserts, but you're still subjugated to the societal pressure and the slope will still happen.

Trapping/Crossdressing/Forced Feminization - The ultimate cuckery. This is the point the male absolutely gives up on any responsibility as a man and decides to simply become a woman and avoid all the problems above, while simply engaging in his autogynephilia openly. This is bad, fuckers, and it needs to stop.

Wanting to Fuck Traps/Trannies/Dominating another Male - An interesting offshoot of the self-esteem problem. When man becomes so worried about not being able to please women, he simply takes the route of projecting a man into that role, instead. This is usually seen in males that have mostly avoided pornography, or at least offshoots of it that don't focus on self-insertion, and thus have little aytogynephilia themselves.

Hypnosis Pornography - Quick PSA: Porn hypnosis ain't fucking real. Hypnosis is by definition auto-suggestion - basically, you believe in it because you want to. Stage hypnosis? Several times proven to work by a combination of the audience wanting it to work and peer pressure. Shrink hypnosis? That only works if you actually want help yourself. The appeal of this in pornography is for the viewer to somehow lose the responsibility for engaging in it, a form to take the blame off himself.

Pedophilia - I believe the act of being attracted to children is centered around the problem of self-esteem as described above - it's why there's been such a massive spike of it in recent years. Basically, when engaging in sex with young children, expectations of size and performance matter nothing - they are all side-skipped. In a way, pedophiles are men without any self-esteem who have simply fallen back to abusing children instead - kinda like a high-school kid that picks on pre-schoolers.

Rape - As described above, Rape is, while closer to man's natural instinct, also somewhat based on a desire to sidestep the many hurdles of sex and sexual self-esteem the media imposes on men today.

Lesbian Pornography - Basically a way for man to remotely engage in autogynephilia. You get your brain constantly rewarded for what it recognizes as female pleasure sources.

Scat/Gore/Other Disgusting Shit - Focusing pleasure in an act other than actual penetration is a manner of sidestepping sexual self esteem issues, unless of course there's also submission involved, which is common.

Some other Shit - I can't possibly cover all fetishes in the planet, but you have to realize that most of them are in some way imbued in these two, main issues: The miswire of the brain's pleasure centers and the current self-esteem issues imbued in men by the media.

So what can I do?

If you're here and you want to help yourself, you're already taking the right steps.

First, realize all this shit above is the very cause of beta males in modern society. By letting women invent these standards of pleasure to rule over men, you are letting them control your self-esteem and your sex life with it, and that is having impact on other areas of your life - also realize the harm porn has done to your brain over the years, tracking what many fetishes your younger self would have found disgusting ten years ago.

The first step is to stop being a beta. Realize the male brain is wired in one and one only way to think about sex, and that your own phallus is an instrument that grants you pleasure. You are naturally only rewarded - and should only think about - engaging in sex with a female, and anything else is probably harmful to you and society around you.

Be aggressive - don't fall for the media lies that try to rule your self-esteem. Unless you have an actual medical condition, your dick or whatever is fine, and unless you're a complete virgin, you can perform well in sex - even if you are, there are much better sources on how female pleasure work than fucking porn videos, because lemme tell you buddy, that shit's all fake.

Realize your fetishes are a sickness to your brain - and dump porn entirely. "Oh, but my cute waifu pictures!" You fucking disgust me, but you can still look at your stupid 2D pictures once in a while, you just have to rewire your brain for them not to be your source of sexual pleasure. And no hentai of girls getting fucked or something either - on the same note, quit porn entirely, and while I did say 3D magazines were fine back in the day, your brain's much too fucked up at the moment. Maybe some other time, but give all nudity a rest for a while.

I'm not saying those NoFap fags are entirely right - people have been wanking for eons - but yes, quitting all masturbation for a while would probably help. It makes your brain hungry for arousal and can be quick in getting your brain to like what you used to like - I quit for two months and suddenly, a woman with a risqué top was already attractive to me again. I felt like at the start of puberty again - it was quite magical.

Remember not to come back to porn, and remember how your brain is supposed to think about sex - you are the male. You are the alpha. You're not here to be submissive or some shit - you stick your dick in things. The natural's that simple, and it has worked for eons.

It's time to shed the beta away. You can't fix the planet while you don't fix yourselves.

I hope this has been enlightening, /pol/ - please discuss and have a good day.

nickelodeon's

CUCKOLD FETISH SITCOM FOR KIDS

Bella and The Bulldogs, Nickelodeon's top rated kids show, was co-created by Jonathan C. Butler. Butler's previous work was a softcore porn film called *The Cuckold*, about a sadomasochistic interracial sex fetish in which a white husband (the "cuckold") watches while his wife has sex with a black man (the "bull").

Shockingly, Butler's Nickelodeon show, about a girl quarterback on a high school football team, is filled with themes, symbols, and references drawn directly from the cuckold subculture.

Cuckold themes form the nucleus of *Bella and The Bulldogs*, as seen in the three main characters and their dynamics. Bella, a beautiful strong-willed blonde girl; Troy Dixon, a popular athletic black boy; and Newt, a weak, emasculated white boy. Newt has a crush on Bella, but Bella secretly admires Troy and the show's fans are encouraged to root for their eventual pairing. Newt is regularly humiliated throughout the series, while Troy revels in his dominance and collects girls' phone numbers.

The name of the show itself is a reference to its fetish theme. Interracial cuckold revolves around "bulls" and the series seems to fixate on bulls, despite the team mascot being a bull*dog*. In a scene that echoes the sadomasochistic sex rituals seen in *The Cuckold*, Bella is blindfolded and led to a candlelit basement for an initiation where she must slap a bull. Around her neck she wears two keys, a large black one and a smaller white one. Keys and blindfolds are both common accessories in the cuckold kink, as can be seen in the pictures below.

The series is filled with flashes of disturbing imagery that relate back to the fetish.

It's odd to find so much symbolism layered into a bland, bubbly children's show but it starts to make sense once you understand Butler's predilection for myth-ology and cuckoldry. His production company is called Mythological Beast and its logo features a minotaur, the child-eating monster born of a woman and a bull.

The War on Drugs: Oxytocin, Cultural Marxism vs. the West, and their Synthesis

Oxytocin: "Isn't that a prescription painkiller?" No, you're thinking of oxyCOnitin.

Do you think just because you manufacture your own supply of a molecule, in the core of your brain, that war can't be waged on it? It may not be formally declared, but a de facto war is already well underway.

First, a definition: Oxytocin is a peptide hormone produced in the hypothalamus, deep in our limbic system near the brainstem. It is stored in - and released from - our pituitary gland, AKA the "master" gland.

In cliché science, it's called the "cuddle hormone". More accurately, it's the hormone of bonding. It underpins many of our strongest and most noble instincts: love, friendship, trust, cooperation, loyalty, generosity, courage, and fidelity. It's also essential for optimism and healthy self-esteem.

Oxytocin has a half-life of about 3 minutes in the blood, so its effects are very short-lasting, but it initiates a cascade of positive hormonal events that reinforce overall health and pro-social behaviour. Its release is especially affinitive to touch: a hug, a handshake, even a Duchenne smile can evoke it... It's enmeshed in the intricate nonverbal dance, the largely subconscious symphony of communication linking all humanity.

Released in greatest quantity during childbirth, it relieves pain and forges a lifelong bond between mother and child. It's also intimately involved in father-child bonding, lactation, wound healing, sexual arousal, orgasm, and milk ejection. Oxytocin release is triggered by physical touch, and heightened social and spiritual awareness. Even the intensity of labour pains - although intensely excruciating - are significantly diminished by giving birth, fast to activate maternal instinct and flood the mother with oxytocin. Women who have had a caesarian section are more likely to suffer post-partum depression, and in the 20th century, but this is also the first century in which orphans have been shown to display hampered oxytocin function well into adulthood. Clearly this molecule is crucial to life.

Oxytocin reduces fear, social anxiety, gaining the tongue-tied confidence to approach a stranger. It's the anti-stress hormone cortisol: it evokes contentment, enabling feelings of calmness and security by inhibiting overactive brain regions associated with behavioural control. Deprived of it, we are scattered, timid, and paranoid; shut inside ourselves. Trust is increased by oxytocin release, paving the way for empathy, generosity, and the ability to see others as allies, friends, and lovers. Oxytocin is released by the pituitary gland, which is directly connected to both the hypothalamus and the amygdala. These two structures, the primal "reptilian" brain, are the most ancient, instinctual, and emotional parts of the brain.

This precious endocrine is fundamental to mechanisms of in-group bonding, reaching from the family unit to friends, tribe, town, and country... it's even involved in our higher order feelings about nationalism, patriotism, and civic duty. Oxytocin is the biochemical basis of "us", and it's been the ultimate tool in group survival strategy. In a carefully controlled study exploring the biological roots of immoral behaviour, oxytocin has been shown to promote dishonesty in outcomes favouring the individual over the individual belonging.

Let's look at some of the ways our modern paradigm deliberately interferes with - and seeks to subsume - our oxytocin expression:

Central is Cultural Marxism, and its descendants stemming from Critical Theory. Critical Theory was a group of intellectuals who assembled to undermine and subvert the social fabric of Western culture, and break down the oxytocin-mediated bonds of trust and community that maintain it. test they congeal to support the dreaded "Authoritarian Personality". It's almost laughable. Critical Theory is a pseudo-intellectual form of Marxism that replaces the concept of class struggle with a struggle between the individual and society. Its adherents see all forms of projection as fear and oppression, and therefore inherently irrational and authoritarian. Therefore, the ideal individual is without prejudice, and without peer. Look no further than the unparalleled body count of Communism in the 20th century, but this discussion is not so much about the dialectic trap of left vs. right, it is about the mechanisms through which the "high-status" have sought to preserve their position and cohesion at the expense of greater humanity, and extend this reach of their power.

Anyway, or Freud was still pretty brilliant, and he hit close enough to the mark that we can add psychiatry to the list alongside horseshoes and hand grenades. His nephew Eddy Bernays took the torch and ran with it. Hailed as the father of modern advertising, and arguably the founding of people, he wrote the book on Propaganda in 1928, launching the straight-of-hand enterprise known as Public Relations and steering the unfolding of the 20th century, as delineated thoroughly in Adam Curtis' Century of the Self.

The Western cultural narrative has its roots in the concepts ancient Greece, cooperation, stoicism, and personal sacrifice towards the future of the community was an adaptation to the harsh environment. It made sense to help strangers and contribute. Since Ice Age Europe had very low population density, inter-group competition was not as significant a cultural stimulus as it was for more temperate and densely populated parts of the world.

Cultural Marxism exploits this deep-rooted template. The psychoanalysts of the late 19th and early to mid 20th centuries did not conduct a comprehensive study of all peoples on earth; they studied Europeans, and their insights into the weaknesses and flaws of our mind are uniquely applicable to the European and North American psyche.

It operates chiefly through the manipulation of language and managing mass-perception, and its most effective adherents are indeed uniquely talented in their capacity for the generation of new terms and symbols and the redefinition and reconceptualization of others, often inspiring them to create entirely new fields of study and academia. These terms are designed to undermine and subvert the social fabric of Western culture, and break down the oxytocin-mediated bonds of trust and community that maintain it. test they congeal to support the dreaded "Authoritarian Personality". If we accept that the Critical Theory's original positive intent was to undermine ideology as the obstacle to human liberation, it has indeed become what it sought to unseat. It is now the oppressor.

Here's how the steamroller of Cultural Marxism, and the weaponized concepts it promotes, is tantamount to a war on oxytocin:

Feminism and Sexism:

These encouraged women to distrust and resent men, and reactively, men to distrust and resent women. A direct society-wide oxytocin antagonist. Much is yet to be written about feminism and its leading role in the subversion of traditional Western values, especially in academia. Currently, it has achieved such supremacy that open-minded discussion is impossible within institutes for higher learning (where the free exchange of ideas was once exalted), and criticism of it is treated like a taboo. Feminism is a dogma, and like all dogmas, it is built upon a foundation of truth - namely, which is the unequal treatment of women throughout history. The dissonance is that this truth is now accepted.

Those who contend that men and women have always been equal and complementary, and that we as a species could never have made it this far without the talents of both sexes in equal measure – in other words, those who honour the historical contributions of women and grant that they were intentional agents of their will, seeking their own biological imperatives, are branded "sexist". Under such rules, "progress" is a one-way street, and those who question it are still criticized and ridiculed.

Yes I noticed that too. The anonymous professor post is old news for us.

We are almost certain of who this sexologist is, and we know why he is after YBOP. His research and academic reputation depend on the following:

1) Sexual tastes are innate and cannot change. In other words our articles about morphing sexual tastes and guys escalating to genres they say don't match their innate tastes threatens his life's work
2) porn addiction does not exist
3) porn-induced ED does not exist

So you can see he is quite upset with us, and Marnia has battled with him on the academic list-serve trying to explain what you guys have experienced and have healed.

WARNING: CUT AND PASTE FROM A BACK & FOR THE ABOUT THIS POST (ps - I could add several more cut & pastes, and new studies about deltafosb, internet addiction studies with porn and 2 brain studies on porn....but enough)

Quote

> I read an article and subsequent discussion that occurred on here a month or two ago that shook my faith in YBOP's principles to the core and I got very angry as it had seemed like the light at the end of a long, dark and depressing tunnel.

That was a very clever spin job (I address this below) - so clever that it still has you believing the lies - such as YBOP doesn't depend upon experts.

One single article refutes most of what the anonymous sexologist implied in his "student's" spin job. **Toss Your Textbooks: Docs Redefine Sexual Behavior Addictions**
http://www.yourbrainonporn.com/node/645

The American Society of Addiction Medicine is not anonymous, and is packed with some of the top neuroscientists in the world: people who actually study addiction. Not an anonymous sexologist with an agenda, who is afraid to put his name to his claims, and who doesn't cite a damn thing.

Really get this: ASAM totally agrees with YBOP. They mention sexual behavior addictions 12 times in their 3 paper and say it involves the same mechanisms and brain changes. Please read their 3 documents:
http://www.asam.org/advocacy/find-a-policy-statement/view-policy-statement/public-policy-statements/2011/12/15/the-definition-of-addiction

This alone refutes the what you and those on whom you rely said - that YBOP is somehow depending only on anecdotes and more important - that *the experts* don't agree with YBOP. Which experts? Addiction experts *do* agree with YBOP. Did you know that ASAM contains the top addiction researchers in the world? Please Google Nora Volkow - she is former ASAM board member, and current member, who helped draft the new definition - along with the 3,000 other members (MDs and researchers.)

Notice how the sexologist - who is not an expert in addiction - left this out.

You and others need to understand that there are two distinct groups of researchers at odds.

1) Addiction researchers who study the brain and have 40 years and thousands of studies (animal and humans) all pointing to the fact that all addictions involve the same mechanisms and brain changes. No studies have refuted this. See ASAM, please.

This translates into, "If you have the signs symptoms, and behaviors associated with addiction - you have a specific constellation of brain changes." No studies have refuted that statement.

2) Sexologists who have little or no training in brain science and NO training in addiction neuroscience. They are fighting tooth and nail to prevent the recognition of porn addiction. Since they have been advocating porn use and saying that there's no such thing as too much - their reputations are at stake.

The guy you relied on didn't cite one study, because he doesn't have any. He and his colleagues are afraid. So much so that they spend precious time and energy anonymously attacking obscure people and websites. Don't you find that a bit odd?

Incidentally, there is a reason why this anonymous sexologist is going after YBOP. His academic reputation depends upon it. His life's work is built upon the dubious concept that brains are NOT plastic. That sexual "tastes" cannot change. "You are what you are long before puberty, and your porn use only 'uncovers' that, no matter how bizarre your tastes become as you escalate." Since addicts escalate for an entirely different reason (desensitization), he's determined to deflect discussions of the possibility that addiction is at work.

Specifically - YBOP has written several articles describing morphing sexual tastes (not orientation changes) - and pointed out that often these "tastes" reverse themselves during a rebooting period. **Is Internet porn making male sexuality more plastic?** http://www.yourbrainonporn.com/can-you-trust-your-johnson

If guys tastes change through Internet porn use - then his research and reputation are threatened.

To sum it all up:

1) That particular YBOP detractor has stated that porn addiction does not exist.

2) He does not believe that continued porn use, over time, can alter sexual tastes, causing them to morph into genres that don't match one's sexual orientation. You should take into account the fact that his current research depends on upholding this myth that porn can't alter tastes. KEY POINT - If it turns out that porn alters tastes, his years of "research" will be refuted or called into question. That is why he went after Nofap & YBOP

3) He has stated that porn-induced ED is a myth.

4) He stated that all neuroplasticity is irrelevant because "the brain changes all the time." Which is like saying all cell division is the same (think cancer).

5) He conveniently ignored 40 years of addiction research in animals and humans, which has uncovered very specific neuroplastic changes shared by ALL addiction. He doesn't know enough about it apparently to understand that it guts his entire argument.

6) He lied in the post when he said that YBOP/TGPE depended only on animal research. In fact, 18 brain studies on internet addicts (again, not videogamers...those are *other* studies) have shown all the same fundamental addiction-related changes as seen in drug addicts. Ten studies are cited in this article: **Recent Internet Addiction Brain Studies Include Porn**
http://www.yourbrainonporn.com/node/858

Moreover two of the brain studies followed recovering addicts and saw a *reversal* of addiction-related brain changes. Causation is becoming unmistakeable, and yet this guy ignores the unwelcome research.

7) He conveniently left out the opinion of the American Society of Addiction Medicine (ASAM), which released their sweeping new definition of addiction last August. The organization members are not just doctors, but also researchers who provide the hard data. ASAM unequivocally stated that all addictions involve the same basic mechanisms and resulting brain changes. In their new definition they stated that *sexual behavior addictions* exist. In fact, ASAM set aside 3 FAQ's just for sexual behavior addictions.

Please see this article, the quotes, and links to ASAM's new definition of addiction. **Toss Your Textbooks: Docs Redefine Sexual Behavior Addictions**
http://yourbrainonporn.com/toss-your-textbooks-docs-redefine-sexual-behavior-addictions

8) He left out the very recent decision by the DSM-5 to create a "behavioral addiction" section in the upcoming newly revised DSM-5.
See - **The D.S.M. Gets Addiction Right** http://www.nytimes.com/2012/06/06/opinion/the-dsm-gets-addiction-right.html?_r=2

9) He suggested that behavioral addictions involve different mechanisms than drug addictions. This is false, as chronic overstimulation of the reward circuit leads to accumulation of deltaFosb, which activates and suppresses a very specific set of genes, leading to the brain changes found in all addictions.

Please see these article and follow all the links - **Porn, Pseudoscience and ΔFosB** http://www.yourbrainonporn.com/node/985

TL;DR: The sexologist has no training in addiction neurobiology; doesn't believe in behavioral addictions, including porn addiction; fervently denies morphing of sexual tastes and dismisses all evidence to the contrary; fervently denies porn-induced ED; is at odds with ASAM's new definition of addiction, and the new DSM-5; doesn't know the basic mechanisms and brain changes that occur in ALL addictions; and is attempting to protect his own research conclusions, which rest on the premise that sexual tastes are immutable. Skepticism is healthy, but spin is not refutation. Choose your sources carefully, and be slow to buy into spin.

END OF CUT & PASTE. Guess what I'm going to today? Keep working on my new presentation on the adolescent brain and Internet porn, which heavily emphasizes sexual condition and morphing sexual tastes. The sexologist is really going to like it - guaranteed.

Most of you probably are unaware of what "Mindgeek", this company, even is— that's because it is just a shell company that its real masters have gone at great lengths to conceal their operations and identities, and most importantly, their endgame.

This shell company, hidden away in an anonymously structured Luxemburg corporation, owns the following: Brazzers, Digital Playground, Pornhub PornMD, RedTube, Playboy TV, and YouPorn and dozens of gay sites. Most upper-level management and private stakeholders are Jews. They are also one of the largest (((big data))) companies around.

Their goal: to infiltrate and destroy what is left of western society by hypersexualizing anything they can think of and destroying everything we once held sacred. They are trying to break apart the family unit by introducing the populace to sicker and sicker pornography, including most recently, porn that simulates incest. They are trying to normalize homoerotic materials to classically condition people into becoming homosexuals (see behavioral psychologist, B.F. Skinner). They openly work with the media to not only promote their own filth but also to say that there are no downsides to any of it! They managed to create the largest mind virus in our generation, the ultrasexual feedback loop—this is where sexual thoughts actions and behaviors become the a total obsession for people, at expense of productive life goals.

Let's break apart the name. "Mindgeek". Why would a porn umbrella company be called this? What relevance does it have? It has to do with the Jewish owners larger goal; to get inside and infect the minds of everyone (most importantly, white males), to subconsciously affect them. They do not make any money from people who just browse and don't click the ads; but they do get an addicted slave though that now values the short-term pleasure more than any long-term goals in life and will ideally absorb their political conditioning as well. They are pure evil.

I have definitely noticed, in certain threads with damaging information, they can be sled with pictures of very attractive women, as if they're trying to b8 you into jacking off

That's probably one of their strategies

Yes it is. They have a full team that operates on Reddit and 4chan, just look how active pornhub is on reddit and how much random porn is posted here.

You can't think intellectually if you're brought to your most base instinct. It will always outcompete the intellectual aspect of our brain.

Nice find. Hopefully I can stop watching porn for good one day. I struggle to have pride because of how my sexuality has degenerated alongside compulsive porn use.

You know, I do find it interesting that in recent years there top advertised vids are ALWAYS about incest. Mostly mom/son stuff. Even the non-professional ones have that theme. Strange...

No…this guy has no photo of him online or if there is, I can't find it for shit… this guy really knows how to hide himself and work from the shadows. What I could find about him is that he was an electrical engineer student at Concordia University from 2000-2004 and from 2005 to 2008 he used to work for Matrox Electronic Systems, after which, my guess is he sold his soul to the devil in order to control the networks of world-wide production and distribution of the human reproduction act.

6 Ways to Develop Sexual Integrity

Resolve the conflict between our values and our choices

Posted Nov 04, 2016

3. **Watch More Porn:** An interesting effect happens as people watch pornography. They become more egalitarian, and more supportive of women and men sharing roles and work, less accepting of gender-based discrimination. They also become more accepting of sexual diversity and less stigmatizing towards homosexuality. They become less religious, and may even experience more crises of faith. Enjoying porn leads to people changing their beliefs about sex and gender, and, in some cases, rejecting the dogmatically rigid sex/gender values they were taught in church. Our society is becoming less dogmatic about sex, more egalitarian, and more accepting of sexual diversity. Where our pain and struggles emerge from a conflict between these different sets of values, watching porn may in some cases lead to people being more accepting and less judgmental, both of themselves and others. This is why sex therapists are typically required to attend SARs (Sexual Attitude Reassessment seminars) where they are exposed to porn and sexual diversity, and forced to confront and examine their beliefs about the "right" kind of sex.

>>10153956
I think porn has a few things going for it as a psy-op, intended or unintended
>Makes men feel to have to try harder to impress sexually(or that this you even need to impress sexually)
>same for women but also look good while doing it
>glorifies degeneracy of fucking a lot of people and lack of commitment
>enables destructive fetishes
>destroys the sanctity of a man and woman making love to have kids, creates a "keeping up with the Jones" mentality in regard to methods of fucking
>lot of porn stars are addicts
>lot of porn stars are (((cut))) normalizing this mutilation
>massive time waste
I'm sure you could think up more ways it fucks with us.
Also if you want to take the Anon5 pill check the first image, also he's claimed they use realistic extensions to look bigger but NDAs keep the actors from talking about it.

Interesting. I wrote a general HTTP traffic garbage generator in Perl that uses WWW::Mechanize::FireFox to click random links on porn sites. Suffice to say it wasn't too long before I noticed that the majority of the "suggested content" fell into two specific categories: a) coalburning white whores, and b) jewish sons fucking fucking their own whore mothers.
Now… Perl's rand() isn't the greatest, but I still refuse to believe that links selected using stochastic processes would show a trend toward any given meta tag. Would this be proof that the incest tag is being forced?
I should check the program to see what it made the jews think I watch recently, and specifically to check for snuff/strangulation…

Actually I've found by simply looking at the "most viewed" and "most popular" videos on motherless.com is an excellent barometer for porn trends.
I'm completely serious, I used to visit that shithole in my degenerate past and was always slightly disturbed by the type of porn that became popular there, and have before noticed certain types that started gaining popularity there, only to pollinate onto other porn sites (such as incest porn), and still return there solely to measure what type of porn is becoming popular.

If you think censorship is our keikaku [redacted] you must lurk the fuck more.
If you think that pornographic movies are harmless, as they exist today as a deluge of petabyte upon petabyte of high-intensity, hypnotic imagery of the fringes of human sexuality free and on-tap for anyone to indulge in, at anytime, then you also need to lurk the fuck more.
I'm not a nofap true believer or anything of the sort, I personally think you *have* to jerk it at least once a month minimum, or you're pretty much just riding the shortbus to Prostate Cancer, USA. But misuse of pornography will absolutely mindfuck you. Why do you think all the tranny/furry/aplhabetbbq shit came from in the first place?

That's what most of this guy's sites are, and I consider free streaming porn to be a major problem because it reaches kids and is dangerous to addicts.
As a borderline addict myself, I find the tube sites have the power to suck me down a rabbit hole leading from one interest to the next, and I don't even suffer from the desensitization others experience. I just like looking at women, and the novelty factor presents as a weakness for variety. If I have the morning free I will look at softcore lesbian and masturbation videos for hours when I could be playing music or writing. The combination of free content and robust suggestion engines makes this far more dangerous for people who are depressed, bored, lonely, sexually deprived, sexually confused, and so on.
I'm for restoring the paywall. It won't save everyone, but it will discourage binge behavior among kids, losers, and most anyone who isn't so far gone as to empty their bank accounts for a vice. We will always have people who lose everything because of gambling, alcohol, MMOs, etc. Frankly, to hell with those people. I'm not interested in protecting dangerously impulsive people. I think we should focus on stopping predatory and manipulative behavior aimed at people who are vulnerable but worth protecting.

I suppose your right, especially since amateur porn is the bedrock of tubesites. I was just speculating that the most attractive and popular content on these site's is likely professional videos from pay-sites that get taken down fairly quick. But since they do get taken down tubesites suddenly might not be able to maintain viewcounts with amateur videos to pad the site out, if suddenly amateur videos were non-viable of course.
I've also wondered if we could attack the porn industry from the porn as prostitution angle, that being that these women are being paid to have sex with another person–the only difference being that it is not usually the person she's fucking paying her for the sex.

>Ramallah, West Bank - Porn movies and programmes in Hebrew are being broadcast by Israeli troops who have taken over three Palestinian television stations of Ramallah, irate residents of the besieged West Bank town said on Saturday.

>The offices of three local television and radio stations were occupied by soldiers on Friday morning, a few hours after tanks and hundreds of troops stormed the town in Israel's biggest offensive against the Palestinian Authority and its leader Yasser Arafat.

>The soldiers started broadcasting the porn clips - considered extremely offensive by most Muslims - intermittently on Saturday afternoon from the Al-Watan, Ammwaj, and Al-Sharaq channels, the residents said.

>"The pornographic movies started on Al-Watan television at around 03:30," one 34-year-old Palestinian mother named Reema said.
>"I have six children at home, they have nowhere to go with what is going on here and can't even watch TV," she said angrily.
>"It's not healthy really. I think the Israelis want to mess with our young men's heads," she said.
>'Deliberate psychological damage'
>Anita, a 52-year-old mother of three children, complained about "the deliberate psychological damage caused by these broadcasts".
>"I am furious, these are the people who are shooting at us that also play this disgusting trick on us," she said.
>"We are desperate for news and constantly flipping channels and get these terrible pictures instead," adding that videos of the intifada were also shown backwards with "ideal terrorism" written in red across the screen.
>"Luckily, there is no electricity in half of Ramallah," she said from her house in east Jerusalem where the channels are also available.
>A fourth local station, whose premises were not seized by the army, ran a written message across its screen letting people know it was the Israelis who were behind the graphic scenes.
>"Anything currently shown on Al-Watan and other local TV channels has nothing to do with Palestinian programmes but is being broadcast by the Israeli occupation forces, we urge parents to take precautions," the message said.
>Israeli military denies allegations
>The Israeli military denied that it had anything to do with the pornographic programming and instead blamed the Palestinian leaders.
>"The Israeli security forces have no interest in putting pornographic and racist movies on Palestinian television," an army spokesperson said.
>"The only reason we are in these buildings and in this city is to fight against terrorists and their infrastructure after giving the Palestinians various chances to [do] it themselves," he said.
>Palestinian leader Yasser "Arafat is willing to go low in order to make himself look better in this uncomfortable situation", he said.
>Israeli foreign ministry spokesperson Emmanuel Nachshon said any such broadcasting was "shameful", but said he was not aware of the Israeli army's involvement.
>"I cannot believe that Israeli soldiers would engage in such despicable behaviour," he said. - Sapa-AFP

It was wilder country a few years back but these days many of the legit sites have tons of long clips and full scenes on the tube sites at 720p. I'm not sure anything can be done about that.

Honestly, even if we managed to slam them with a bunch of paperwork about their amateur content, they would just axe it across the board and then the legit studios would begin producing mock amateur content (as compared with what they market as amateur today) that looks like the real lo-fi (mostly) garbage uploaded today by individuals, to fill the demand.

It crosses my mind that respected people who study porn and sex addiction might be rallied to approach pornstars and adult models who have struggled with or lost loved ones to drug addiction, and somehow mobilize them to create pressure against the more predatory tactics. That's pie in the sky, though. I have no idea where you would start.

WHY?
Jewish Supremacist Mythos
"The mashiach [Jewish messiah] will bring about the political and spiritual redemption of the Jewish people by bringing us back to Israel and restoring Jerusalem (Isaiah 11:11-12; Jeremiah 23:8; 30:3; Hosea 3:4-5). He will establish a government in Israel that will be the center of all world government, both for Jews and gentiles (Isaiah 2:2-4; 11:10; 42:1). He will rebuild the Temple and re-establish its worship (Jeremiah 33:18). He will restore the religious court system of Israel and establish Jewish law as the law of the land (Jeremiah 33:15)…The world after the messiah comes is often referred to in Jewish literature as Olam Ha-Ba (oh-LAHM hah-BAH), the World to Come…In the Olam Ha-Ba, the whole world will recognize the Jewish G-d as the only true G-d, and the Jewish religion as the only true religion (Isaiah 2:3; 11:10; Micah 4:2-3; Zechariah 14:9)."

I don't need any book to tell me that fellatio, which our formerly sane society considered a crime, is sick. We know that oral copulation became popular in the 1970s because that is when oral cancer began to rise. But, let's forget disease and

posit that it occurs only within a monogamous structure, it's still wrong. Sex is for procreation (the inherent biological imperative), people that forget that get outbred. "Love" without regard to this isn't love at all, but hedonism.

Yeah but that is a transparent "metric" that is based on site-wide statistics. What I'm referring to is the thumbnail gallery dynamically compiled for a specific IP and/or viewing habits. The site-wide acts like a tag cloud, but I am 99% certain these places are using individualized stats to compile their "suggested content".

That's why I was thinking they are trying to manipulate viewers. As selecting random choices from there shouldn't tailor it down to very specifically cuck and incest porn…

The 2nd picture gives the best insight into the end game.
There are perks to the new tube economy for porn. Normalizing fetishes, increased degeneracy, data mining, etc. The first pic goes a bit crazy but I'm sure you've noticed in certain free porn or free songs what sounds like people having a discussion in the background. They aren't wrong, it's just subliminal messaging is pretty ineffective for the most part.
The real end plan is multi pronged. When people cannot find value or a skill they can rely on, they become overtly sexual because sexual activity makes them feel good and gives them a sense of value. Rather than spending time trying to

develop a skill or develop as a person, people dump their time into becoming "le super cool guy" and try and bed as many partners as they can.
But people don't act like this on their own. However if you erode families with broken single mother households, the likelyhood the child will be this kind of person goes up. You give them social media they have a Pavlovian conditioning to seek validation they are not receiving from acomplishment, likelyhood goes up. Drug them on anti depressants that give them energy but cause them to feel depressed, likelyhood goes up. Have College sold as 24/7 sex and drugs rather than a place to seek academic truth and have teachers that also teach the filth as academia, likelyhood goes up.
Target women so their expectation of a real man is a hairless 6 pack pretty boy. Mix it with an ideology that teaches them in prime breeding years both they should do anything sexual without any consequence and men who use you for sex are evil, you have an entire generation of women who either don't breed or get knocked up and don't know/hate who ever the father is and think they can do everything on their own.
Add to that women are targeted for social media validation and have become vapid and mindless. Women are easily manipulated.
Now as for the men, chad thundercock will stop being the thunder god of cock by 35, gain weight, and feel depressed and worthless realizing they can do nothing to earn more than 25k a year.
Or they may continue the thundercock status with careful matainence, but then get depressed because they can't pull in young 20 year old puss anymore and their standards are two high and they never developed a personality because they invested so much time in maintaining their body, and eventually become the boy toy of a 40 something with dried up ovaries and cash.
The most insideous thing is now this is hardwired in us. You know damn well while you condemn porn here, you will most likely jerk it still and cannot break the habbit. But that's okay. People have jerked off and fucked for years. Subliminal messaging is not effective if you are aware. as long as you keep focus and try to fight, you slowly being reversing the process.
TL;DR? The end game is to condition us to be useless to the point where we don't even have personalities and lose all humanity. Once you lose your humanity, oh boy….
Many of you are already caught in the porn trap, but thats fine. Just try to resist. You won't win overnight, but you will begin the reversing of the damage done.

Government ministers in Israel have approved a bill that will force internet service providers operating in the region to censor "offensive" websites – including pornography – by default in an attempt to curb the "damaging influence" of such content to underage web users.

This. Censorship doesn't work. Spread the word that it's a political implement to be weary of.

The trick is to find something to do to distract you when the cravings come. Do you lift?

ban the buying and selling of pornographic material. It bypasses the free speech argument altogether and ultimately, would resolve the issue of partners sending nudes or other such things which are typically the pitfalls of pornographic censorship. Treat porn actors like prostitutes. make it just as bad. make it impossible to have a "porn empire"
